Search strategy - Trademarks

Chosen search strategy: Comprehensive

Description of accuracy

The Comprehensive search algorithm is built with a statistical method, using more than 1 million official cases where two marks have been found confusingly similar by a government official in the US and the EU.

This means that the Comprehensive search and watch reports cover all the usual search strategies applied in manual searching, such as:

- identical
- phonetic similarity
- orthographic similarity and misspellings
- prefix, infix and suffix variations
- vowel and consonant similarity
- plurals and stemming
- abbreviations and acronyms
- other similarities

Statistical Risk Analysis - Trademarks

The ranking of results is based on a statistical analysis of more than 1 million official cases of confusingly similar trademarks in the EU or the US. The three "Risk levels" indicate statistically where you will find potential conflicts.

Level 1 - Very high risk.

Of all conflicts, 20% have these types of similarities.

Level 2 - High risk.

Of all conflicts in Europe or the US, 40% have these types of similarities.

Level 3 - Medium risk.

Of all conflicts in Europe or the US, 40% have these types of similarities.

Common law sources - Scope of search

An automated search, with the described limitations, has been done for the following common law sources:

US businesses names

Scope of search: A search among more than 20 million secretary of state business records from all US states and Washington DC.

Domain names

Scope of search: Identical and very similar results from more than 1000 TLD's.

Web search

Scope of search: An automated web search where known biases as region and personal search history have been eliminated. The search combines the trademark name with important keywords provided during the order (or just the trademark name if no keywords were provided). The top 30 results are included.

Images

Scope of search: The same search settings as the Web search. The top 30 results are included.

Social media search

Scope of search: A search of the use of the trademark name in the world's largest social networks: Facebook, LinkedIn, Twitter, Instagram, YouTube and Pinterest. The top 10 results from each social network are included.

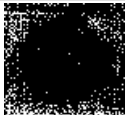

Social names

Scope of search: A search if the trademark name is registered as a user name in any of 50 social networks.

App names

A search if the trademark name is used in Google Play and App Store application names. The top 30 results are included.

Trademark results:

downloadable enterprise resource planning software; cloud servers being computer servers; downloadable computer software for the management of data; downloadable computer software for business purposes, namely, for data processing; downloadable computer software for business purposes, namely, for business transformation used to automate manual processes and implement the data migration of other software products and services, for the purpose of supporting a portfolio of business applications or tools used in business management and operations; downloadable artificial intelligence software used to automate manual processes and implement the data migration of other software products and services, for use in the field of software development, business transformation and process management for the purpose of supporting a portfolio of business applications or tools used in business management and operations; computer programs, downloadable for providing business intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; computer programs, downloadable for collecting, processing, managing, analyzing, transmitting, sharing, and reporting on data regarding sustainability within an enterprise, compliance, and business impact; downloadable data communications software used to automate manual processes and implement the data migration of other software products and services, for supporting a portfolio of business applications or tools used in business management and operations; downloadable software applications for use in database management, for use as a spreadsheet, for word processing, and for recording, collecting, organizing, storing, archiving, reproducing, searching, retrieving and displaying digital data in the field of shopping, purchasing, communication, product and service reviews; downloadable educational software for employee training in the field of software development, information technology, telecommunications, providing and integrating business and technology solutions, human resources, customer service, and enterprise planning, sales, marketing, communications, technology and infrastructure, to meet the business requirements of corporations; downloadable data management software; downloadable integrated software packages featuring downloadable software for administrative, financial, communicative and educational purposes in organizations for the purpose of customer relationship management and enterprise resource planning; downloadable interactive software for database management, customer relationship management, and enterprise resource planning, for supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services with the goal of providing consistency in the way users interact with vendors; downloadable interactive computer software enabling exchange of information; downloadable social software, namely, downloadable software for use in customer relationship management; downloadable application development software for database management, customer relationship management, and enterprise resource planning, for supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; downloadable computer software for computer aided software engineering used to automate manual processes and implement the data migration of other software products and services, for the purpose of supporting a portfolio of business applications or tools used in business management and operations; downloadable content access software for database management, customer relationship management, and enterprise resource planning, for supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; downloadable hardware reliability software, namely, downloadable software for management and control of logistics processes and production processes in the field of software development, information technology, telecommunications, providing and integrating business and technology solutions, human resources, customer service, and enterprise planning, sales, marketing, communications, technology and infrastructure, to meet the business requirements of corporations; downloadable software for remote diagnostics of business applications and tools; downloadable document automation software; downloadable computer e-commerce software that allows users to perform electronic business transactions; downloadable computer programs for data processing; downloadable industrial automation software in the field of software development, information technology, telecommunications, providing and integrating business and technology solutions, human resources, customer service, and enterprise planning, sales, marketing, communications, technology and infrastructure, to meet the business requirements of corporations; downloadable training software in the field of providing and integrating business and technology solutions, human resources, customer service, and enterprise planning, sales, marketing, communications, technology and infrastructure, to meet the business requirements of corporations; downloadable software for product development; downloadable system support software used to automate manual processes and implement the data migration of other software products and services, for the purpose of supporting a portfolio of business applications or tools used in business management and operations; downloadable software for use as a virtual assistant; downloadable workflow management system software; downloadable business technology software for enabling businesses to manage communications with staff and with customers, perform bookkeeping and accounting functions and for managing and monitoring business communications networks; downloadable software suites for database management and file sharing; downloadable computer software platforms for data processing; downloadable computer software platforms for marketing and networking used to automate manual processes and implement the data migration of other software products and services, for the purpose of supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; downloadable collaboration management software platforms being downloadable software for database management, customer relationship management, and enterprise resource planning, for supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; downloadable software for project management, file sharing, and data processing; downloadable software for communications used to automate manual processes and implement the data migration of other software products and services, for the purpose of supporting a portfolio of business applications or tools used in business management and operations; downloadable system support software, and firmware for backup, disaster recovery, file syncing and sharing, and application hosting; downloadable application software for cloud computing services, used to automate manual processes and implement the data migration of other software products and services, for the purpose of supporting a portfolio of business applications or tools used in business management and operations; all of the aforesaid in the fields of sales, marketing and supply chain management

35 - Business management consultancy and advisory services; marketing in the framework of software publishing; marketing services; affiliate marketing; product marketing services; financial marketing

g services; marketing consultancy; assistance and consultancy relating to business management and organization; retail store, distributorship services in the field of computer software; wholesale store, distributorship services in the field of computer software; marketing services, namely, lead generation services

41 - Providing online courses of instruction in the field of software usage for businesses; providing online training seminars in the field of software usage for businesses; conducting courses, seminars and workshops in the field of software usage for businesses; arranging and conducting of displays for training purposes in the field of software usage for businesses; arranging and conducting of training workshops in the field of use of software applications; provision of instruction relating to computer programming; organisation of computer related being computer education training courses; organisation of training courses in the field of software usage for businesses; arranging professional workshop and training courses in the field of software development and software usage for businesses; training in the operation of software systems; training courses relating to computer software being computer software training; provision of education on-line from a computer database or via the internet or extranets, namely, providing classes, workshops, seminars in the field of computer software operation for businesses; provision of online training in the field of computer software operation, data processing, business intelligence and data administration, cloud computing, workflow automation and enterprise resource planning; provision of online tutorials being tutorial sessions in the field of computer software operation; arranging, conducting and organisation of workshops in the field of computer software operation and data processing; providing workshops for training purposes in the field of business intelligence and data administration, cloud computing, workflow automation and enterprise resource planning; business training; all of the aforesaid in the fields of sales, marketing and supply chain management

42 - Computer software design; software customisation services, namely, customizing computer software; computer software consultancy; advisory and consultancy services relating to the design and development of computer hardware; advice and consultancy in relation to developing computer networking applications being software; consultancy and information services relating to software rental; consulting in the field of cloud computing networks and applications; consultancy services relating to computer networks design using mixed software environments; consultancy relating to software maintenance; advisory services relating to computer software design used for graphics; advisory services relating to computer software design; consulting services in the field of software as a service (SAAS); advisory services in the field of product development and quality improvement of software; consultancy in the field of software design; application service provider (ASP), namely, hosting computer software applications of others; updating of computer software for databases; cloud computing, namely, remote management of the information technology cloud computing systems of others; consulting services in the field of cloud computing; computer services, namely, cloud hosting provider services; cloud storage services for electronic files; cloud storage services for electronic data; computer programming and software design; computer network configuration services, namely, configuration of computer networks by software; computer network configuration services; consultancy and advice on computer software and hardware design; consultancy in the field of computers, namely, computer software consultancy in the field of design, selection, implementation and use of computer software systems for others; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware problems using software; updating of computer programs for third parties; feasibility study services in the field of new computer software troubleshooting in the nature of diagnosing computer hardware and software problems; software creation in the nature of software design; writing of computer software; updating of computer software for others; hosting platforms on the internet, namely, providing a web hosting platform for data management and software operation; hosting of access control as a service (ACAAS) servers and software, namely, server hosting and hosting computer software applications of others; hosting services, namely, providing web site hosting services; software as a service (SAAS) services featuring software for use in the rental of computer software to others; software as a service (SAAS) services featuring software for use in business transformation and process management for the purpose of database management, customer relationship management, and enterprise resource planning, supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; providing information in the field of computer software design; providing information in the field of computer software development; providing information about the design and development of computer hardware and software; installation and maintenance of computer programs; installation and maintenance of internet access software; installation of database software; installation of computer software; installation, repair and maintenance of computer software; installation of access control as a service (ACAAS) software; installation, maintenance and updating of database software; installation, maintenance, repair, testing, copying, and updating of computer software; installation, maintenance, updating and upgrading of computer software; IT consultancy, advisory and information services relating to computer technology; custom design of software packages; quality control services for others relating to computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of software for communication systems; maintenance of data processing software; maintenance of software for internet access; research of computer software and consultancy services relating to computer software development; design and development of operating software for accessing and using a cloud computing network; design and development of single sign-on software; design and development of computer software architecture; design and development of operating system software; design and development of data processing software; design and development of computer software for process control; design of graphic software systems; design of operating system software; software design and development; design and development of computer software for supply chain management; development and testing of software; development of operating system software; development of software for communication systems; development of software for secure network operations; development of computer software for logistics, supply chain management and e-business portals; development of computer software application solutions; software development, programming and implementation; development, updating and maintenance of software and database systems; public cloud hosting provider service; platform as a service (PAAS) featuring software platforms for transmission of images, audio-visual content, video content and messages; platforms for artificial intelligence as software as a service (SAAS), namely, software as a service (SAAS) services featuring software using artificial intelligence for use in the field of software development, business transformation and process management for the purpose of database management, customer relationship management, and enterprise resource planning, supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; platforms for graphic design as software as a service (SAAS), namely, software as a service (SAAS) services featuring graphic design software; private cloud hosting provider service; professional advisory services relating to computer software design and development; programming of operating software for accessing and using a cloud computing network; computer software programming services; programming of software for internet platforms; programming of software for e-commerce platforms; programming of software for importing and managing data; programming of software for information platforms on the internet; design and writing of computer software; writing and updating computer software; repair, maintenance, and updating of software; software as a service (SAAS) services featuring software for use in database management and data processing; software as a service (SAAS) services featuring software for machine and deep learning; software as a service (SAAS) services featuring software for deep neural networks for the purpose of database management, customer relationship management, and enterprise resource planning; configuration of computer software; software engineering services for data processing programs; computer systems integration services; services for the design of electronic data processing software; computer software design and updating; software design for others; updating and upgrading of computer software; computer software technical support services, namely, troubleshooting of computer software problems; troubleshooting of computer software problems; providing temporary use of on-line non-downloadable software for use in database management and data processing, excluding game software; providing temporary use of on-line non-downloadable software for use in business transformation, excluding game software, for the purpose of database management, customer relationship management, and enterprise resource planning, supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; providing temporary use of on-line non-downloadable software development tools; testing of computer software; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; updating of computer software; updating of software for communication systems; rental of computer software for database management, customer relationship management, and enterprise resource planning, supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; rental of computer hardware and rental of computer software for database management, customer relationship management, and enterprise resource planning, supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; rental of operating software for accessing and using a cloud computing network; providing information, advice and consultancy services in the field of computer software development; providing virtual computer environments through cloud computing; providing virtual computer systems through cloud computing; debugging computer software for others; software as a service (SAAS) services featuring software for database management, customer relationship management, and enterprise resource planning, supporting a portfolio of business applications or tools used in business management and operations, used to automate manual processes or used to implement the data migration of other software products and services; all of the aforesaid in the fields of sales, marketing and supply chain management

Goods & Services:

38 - electronic transmission of financial data and information via the Internet; providing online forums for use in discussing financial transactions and uses of cryptocurrency; electronic transmission of messages between computer users concerning cryptocurrency and financial transactions; transmitting audio, images, messages, video, data by electronic communications networks for financial transactions, management, information, and data, all the foregoing in connection with cryptocurrency transferred through virtual wallets

9 - downloadable computer software for buying, selling, sending, managing, arranging, receiving, exchanging, and transacting in cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets; downloadable computer software for enabling users to securely create, trade, clear, settle and authenticate cryptocurrency transactions; Downloadable computer software application for use as a cryptocurrency wallet; downloadable computer software for financial transactions using blockchain technology; downloadable computer software for processing electronic payments, transferring funds, authenticating transactions, controlling access to and communications with computers and computer networks; downloadable computer software for social interaction, allowing users to interact, share messages, images, and data via global computer network related to financial services; downloadable computer software for enabling users to connect with decentralized financial software applications and decentralized autonomous organizations; downloadable computer web-based decentralized software applications to facilitate blockchain-enabled financial transactions; downloadable computer software for enabling users to electronically create, exchange, store, send, receive, accept and transmit cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets featuring block chain technology, smart contracts, and decentralized autonomous organizations; downloadable computer software for application for validating the reputation of users for membership in a decentralized autonomous organization; downloadable computer software for the analysis of data, namely, analysis in relation to a decentralized autonomous encrypted network to ensure proper functioning and security; downloadable computer software for data encryption for decentralized systems for providing security and anonymity for electronically transmitted data; downloadable computer software for connecting to and interacting in virtual worlds, all the foregoing in connection with cryptocurrency transferred through virtual wallets

35 - providing an online marketplace for exchanging cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets featuring block chain technology, smart contracts, or decentralized autonomous organizations, all the foregoing in connection with cryptocurrency transferred through virtual wallets

36 - online trading and exchange for cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets; financial services, namely, providing decentralized financial services, namely, electronic transfer of virtual currency for use by members of an on-line community via a global computer network; financial services, namely, electronic exchange and transfer of virtual currency utilizing a blockchain; online financial transaction services, namely, providing secure financial transactions utilizing blockchain; electronic transfers of virtual currency; payment processing services in the field of virtual transfer of assets; cryptocurrency exchange and trading services; financial information provided by electronic means; financial management and administration of cryptocurrency investments; cryptocurrency payment processing; financial services, namely, providing financial information related to cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets; financial services, namely, lending of cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets, all the foregoing in connection with cryptocurrency transferred through virtual wallets

42 - providing temporary use of online non-downloadable software for buying, selling, sending, receiving, exchanging, and transacting in cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets; providing temporary use of online non-downloadable software for enabling users to securely create, trade, clear, settle and authenticate cryptocurrency transactions; software as a service (SAAS) services featuring cryptocurrency wallets; providing temporary use of online non-downloadable software for financial transactions using blockchain technology; providing temporary use of online non-downloadable software for processing electronic payments, transferring funds, authenticating transactions, controlling access to and communications with computers and computer networks; providing temporary use of online non-downloadable software for social interaction, allowing users to interact, share messages, images, and data via global computer network related to financial services; software as a service (SAAS) services featuring encryption software and software for the encrypted transfer and review of cryptocurrency; software as a service (SAAS) services for enabling users to connect with decentralized financial software applications and decentralized autonomous organizations; providing temporary use of non-downloadable web-based decentralized applications to facilitate blockchain-enabled financial transactions; software as a service (saas) for enabling users to electronically create, exchange, store, send, receive, accept and transmit cryptocurrency, digital currency, virtual currency, blockchain enabled currency, digital assets, digital rights, fungible tokens and non-fungible tokens and related assets featuring block chain technology, smart contracts, and decentralized autonomous organizations; providing temporary use of online, non-downloadable software application for validating the reputation of users for membership in a decentralized autonomous organization; computer services for the analysis of data, namely, analysis in relation to a decentralized autonomous encrypted network to ensure proper functioning and security; data encryption services for decentralized systems for providing security and anonymity for electronically transmitted data; platform as a service (PAAS) featuring computer software platforms for building, managing, and engaging in decentralized autonomous organizations; providing temporary use of online non-downloadable software for connecting to and interacting in virtual worlds, all the foregoing in connection with cryptocurrency transferred through virtual wallets

38 - satellite transmission services; electronic delivery of data, images, photographs and maps via a global computer network

6 - fixed and mobile satellite receiving ground stations in the nature of transportable metal constructions

9 - Satellite structures associated with flight hardware, namely telecommunication towers with satellites; Computer hardware, namely, data and signal processing devices for fixed and mobile satellite receiving ground stations in the nature of transportable metal constructions and satellite structures associated with flight hardware, namely telecommunication towers with satellites; multi-spectral electro-optical image sensors, namely, radar devices; satellite ground stations, namely, satellite receiving dishes and antenna, satellite signal data processing computer hardware and recorded computer software, video monitors, magnetic media for storage of data, facsimile recorders, electronic hardcopy film recording devices for sound and image carriers; electric and electronic video surveillance installations; radar detectors; radar receivers; radar receivers with amplifiers; radar transmitters; communications and earth observation satellites; fixed and mobile satellite receiving ground stations in the nature of transportable metal constructions

12 - Trailers in which to house ground station components

21 - water bottles sold empty, mugs

25 - t-shirts, baseball caps and hats, sweatshirts, jackets

35 - Geospatial image provider services, namely, providing retail and online store services featuring geographic and earth images captured by aircraft and satellite; outsourcing services in the nature of arranging service contracts for others in the field of developing and assembling satellite ground stations, airborne remote sensing systems, image analysis systems, and airline flight operation systems

42 - Computer systems analysis; consulting services in the field of design, implementation and use of computer hardware and software systems for others which is utilized by others in the development, assembly, and use of satellite ground stations; marine chart updating; development and creation of computer programmes for data processing; image processing software design; land and road surveying; land surveying; marine, aerial and surveying; cartography and mapping services; mapping services; space-based earth remote monitoring for researching geospatial data; interpretation of, namely, analysis of digital aerial and satellite images of the earth for others for scientific and research purposes; photogrammetry services; geospatial services, namely, graphic design services of maps and scale drawings from aerial and satellite photographs; computer modeling services, namely, evaluating algorithms for object detection from remotely sensed imagery of earth; software as a service (SAAS) services featuring software for receiving, collecting, displaying, processing, and analyzing data from satellites, and providing geospatial analysis, satellite command and control, and satellite navigation; software as a service (SAAS) services featuring software in the field of digital imagery for use in connection with the collection, manipulation, processing, electronic formatting and distribution of aerial, geographic, and satellite imagery; software as a service(SAAS) services featuring software in the field of geospatial information and data, geocoding information, geographic information systems, satellite imagery, photogrammetry, mapping, location intelligence and location monitoring, namely, software for accessing, downloading, analyzing, searching, organizing, sharing, distributing, updating, purchasing, integrating, and monitoring imagery, geospatial information, geospatial content, and location-specific information; providing an online computer database in the field of scientific research that provides a historical archive of high resolution satellite imagery of geographic location for comparison with satellite images of the same location following a natural disaster, man-made disaster, political uprising or other event of high interest to provide historical context plus follow with imagery of the geography for scientific research purposes; providing a website featuring a searchable database of scientific information relating to maps; providing a website featuring a searchable database of scientific information relating to remotely sensed earth imagery; providing a website featuring technology that enables users to access and manipulation of software tools for searching, filtering, annotating, bookmarking, alerting, and monitoring geospatial imagery; providing a website featuring on-line non-downloadable software tools for image editing and manipulation; providing scientific information in the fields of geospatial information and intelligence related to a database of images and geographic measurements of the earth; providing scientific information the fields of location intelligence and geospatial intelligence; scientific research and development and consultation related thereto in the fields of geospatial information and data, geo-coding information, geographic information systems, location intelligence, location-specific information, and location monitoring, geospatial information and intelligence services; analysis services for others, namely, scientific services for others, namely, analysis of cartography and mapping information in the field of geospatial information and consultation related thereto; computer services in the nature of storage of digital electronic imaging of aerial, geographic, and satellite images; computer services, namely, providing a website featuring technology enabling users to conduct geographic information analysis

Goods & Services:

9 - Electric sensors; Sensors for determining location, acceleration, proximity, motion, position, pressure, temperature, and humidity; cargo, shipment, delivery containers, and warehouse inventory tracking sensors; Optical sensors; Electric sensors used in the recording, measuring, surveying, processing, tracking, and reproduction of data, video, images, sounds, and measurements and wirelessly transmitting the data, video, images, sounds, and measurements to a computer; GPS tracking devices; Downloadable software utilizing artificial intelligence, machine learning, and remote sensing for use in monitoring, tracking, managing, providing information, and providing predictive recommendations to customers on sensor location, inventory, freight logistics, transportation logistics, asset management, warehouse management, supply chain management; Downloadable software for inventory management, freight logistics management, supply chain management, warehouse management, and transportation logistics; Downloadable software for providing information about the location of assets and about assets in transit, namely, vehicles, trailers, drivers, cargo and delivery containers; Downloadable software using geo-fencing technology to identify and track assets, inventory, and freight location; Downloadable computer simulation software for modeling transportation routes, weather conditions, asset deployment, asset utilization, purchasing patterns, and capital allocation

35 - Business advisory services in the field of transportation logistics, inventory management, supply chain logistics, freight logistics, and delivery tracking; Business management consultation in the field of transportation logistics, inventory management, supply chain logistics, freight logistics, and delivery tracking, product distribution, operations management, logistics, reverse logistics, supply chain, and production systems and distribution solutions; Freight logistics management; Transportation logistics services, namely, arranging the transportation of goods for others; Outsource service provider in the field of warehouse business management; Fleet management services in the nature of tracking of fleet vehicles for commercial purposes; supply chain management services; Business consultation and advisory services in the field of transportation logistics, inventory management, supply chain logistics, freight logistics, delivery tracking, product distribution, operations management, logistics, reverse logistics, supply chain, and production systems and distribution solutions; Providing electronic tracking of freight information to others for business administration purposes; Providing business information concerning tracking of assets in transit, namely, vehicles, ships, trailers, drivers, cargo and delivery containers for business inventory services; Business consulting services, namely, providing business strategy and business market insight, particularly specializing in the use of analytic and statistic models for making predictive recommendations to customers; business consulting services in the field of marketing, sales, and business operation, particularly specializing in the use of analytic and statistic models for making predictive recommendations to customers

42 - Providing temporary use of on-line non-downloadable software utilizing artificial intelligence, machine learning, and remote sensing for in monitoring, tracking, managing, providing information, and providing predictive recommendations to customers on sensor location, inventory, freight logistics, transportation logistics, asset management, warehouse management, supply chain management; Providing temporary use of on-line non-downloadable software for use with inventory management, freight logistics management, supply chain management, warehouse management, and transportation logistics; Providing temporary use of on-line non-downloadable software for providing information about the location of assets and about assets in transit, namely, vehicles, trailers, drivers, cargo and delivery containers; Platform as a service (PaaS) services featuring computer software platforms utilizing artificial intelligence, machine learning, and remote sensing for use in monitoring, tracking, managing, providing information, and providing predictive recommendations to customers on sensor location, inventory, freight logistics, transportation logistics, asset management, warehouse management, supply chain management; Software as a service (SaaS) services featuring software platforms utilizing artificial intelligence, machine learning, and remote sensing for use in monitoring, tracking, managing, providing information, and providing predictive recommendations to customers on sensor location, inventory, freight logistics, transportation logistics, asset management, warehouse management, supply chain management; Consulting services in the design and implementation of computer-based information systems for businesses; Providing temporary use of on-line non-downloadable software using geo-fencing technology to identify and track assets, inventory, and freight location; Design of computer-simulated models; Computer modeling services; Providing temporary use of on-line non-downloadable computer simulation software for modeling transportation routes, weather conditions, asset deployment, asset utilization, purchasing patterns, and capital allocation; consulting in the field of product design

Goods & Services:

37 - Installation, customization, maintenance and repair services all for machines for printing, stamping, embossing, hot stamping and cold stamping; installation, customization, maintenance and repair services all for machines for application of stamping foils, laminating foils onto substrates, particularly onto substrates of paper and plastics; installation, customization, maintenance and repair services all for machines for the plastics processing, paper processing and foil processing industries; installation, customization, maintenance and repair services all for machines for the printing industry and printing machines; installation, customization, maintenance and repair services all for labelling machines and packaging machines; installation, customization, maintenance and repair services all for pattern transferring machines, foil overlaying machines, foil feeding machine mechanism and foil preparation machines mechanisms; installation, customization, maintenance and repair services all for industrial article feeding mechanisms, substrate feeding mechanisms, article preparation mechanisms or substrate preparation machines mechanisms; installation, customization, maintenance and repair services all for conveyor belts and conveyor machine mechanisms for feeding and/or carrying-off of unprocessed and processed materials and goods; installation, customization, maintenance and repair services all for roll-up mechanisms and roll-off machine mechanisms

42 - Technological consultancy concerning surface decoration and surface coating particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy concerning plastics treatment and plastics processing; technological consultancy concerning paper processing and foil processing; technological consultancy concerning the coating of paper and of paper goods and plastic goods by means of foils, particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy concerning the transferring of patterns, decors, structures and functional surface structures, particularly onto substrates of paper and of plastics; technological consultancy concerning packaging machines and printing machines and printing processes; industrial design in the field of foil structure and foil design as well as concerning surface decoration and surface coating, particularly of substrates of paper and of plastics by means of foils; technological consultancy and engineering services in the field of foil technology and concerning surface decoration and surface coating by means of foils, particularly by means of stamping foils, transfer foils and laminating foils; technological consultancy and services of an engineer concerning foil processing; technological consultancy and engineering services in the field of foil application onto articles and substrates, particularly of paper and/or plastics; technical development and technical project management as well as technological consultancy concerning set-up, installation, configuration, use and operation of machines for the graphics industry, stamping machines, foil processing machines, foil feeding mechanisms and foil carrying-off mechanisms, material feeding mechanisms and material carrying-off mechanisms, material preparation mechanisms, foil preparation mechanisms, foil overlaying machines, scaling machines, packaging machines, labelling machines, printing machines, laminating machines, laminators /lamination coating machines and of components and controls for such machines; development of new products and technological consulting services related thereto for set-up, installing, configuring, usage and operation in the field of installations and apparatus of industrial automation; technological consultancy in the field of installation, maintenance and support in the nature of troubleshooting of firmware and of control programs for machines

7 - Automatic stamping machines; automatic machine-driven apparatus for stamping, particularly hot stamping and cold stamping; machines for application of stamping foils, transfer foils and laminating foils onto substrates, particularly onto substrates of paper and plastics and structural parts for the aforementioned; machine tools for stamping; stamping dies, embossing dies, embossing rollers as machine parts; machines for plastics processing, paper processing and foil processing; printing machines and their structural parts; auxiliary and accessory devices for printing machines, namely, feeders, heating and cooling apparatus, drying apparatus, cleaning apparatus, folding apparatus, stacking apparatus, cutting apparatus, pressing apparatus, coating apparatus, binding apparatus, gluing apparatus, bonding apparatus, heat sealing apparatus, wrapping apparatus, embossing apparatus, stamping apparatus; machines for processing of printed products, namely, machines for drying, cooling, cleaning, folding, stacking, cutting, pressing, coating, binding, gluing, bonding, sealing, embossing, stamping or wrapping printed products; packaging machines and their parts; labelling machines; machines and mechanisms with printing units, as parts of other machines and mechanisms or as auxiliary/accessory devices for other machines and mechanisms, namely, xerographic printers and xerographic printing machines, embossed printing mechanisms, inkjet printers and inkjet printing mechanisms, flexographic printers and flexographic printing mechanisms, offset printers and offset printing mechanisms, printing rollers; industrial pattern transferring machines for transferring of patterns, decors, structures and functional surface structures that are printed, vapour-deposited and/or otherwise applied on base foils onto the surfaces of articles or of substrates, particularly of articles or substrates of paper and plastics; industrial foil overlaying machines for overlaying and coating the surfaces of articles or of substrates with foils with patterns, decors, structures and functional surface structures, particularly of articles or of substrates of paper and plastics; industrial machines, namely, roll-up mechanisms and roll-off mechanisms for use with other machines; industrial machines, namely, foil feeding mechanisms and foil preparation mechanisms for use with other machines; industrial machines, namely, article feeding mechanisms, substrate feeding mechanisms, article preparation mechanisms and substrate preparation mechanism machines for use with other machines; all aforementioned goods also as part of other machines or for integration as components into other machines; structural parts and components for all aforementioned goods; hydraulic, pneumatic, electric, electronic controls, hydraulic, pneumatic, electric, electronic and gear drives, hydraulic, pneumatic, electric, electronic valve actuators, as parts for machines and of machine tools; hydraulic, pneumatic, electric, electronic control devices and hydraulic, pneumatic, electric, electronic controls for machines and as machine parts for all aforementioned goods

16 - [~~Stickers, stamping foils of plastic or primarily of plastic, and transfer foils of plastic or primarily of plastic, as far as included in this class; labels and self-adhesive labels of paper or primarily of paper or of cardboard; self-adhesive foils of plastic and primarily of plastic and plastic laminates for packaging purposes, as far as included in this class~~]

17 - [~~Semi-finished products of plastics, namely, adhesive foils in form of stickers and adhesive foils in form of labels; semi-finished products of plastics or primarily of plastics in form of foils for further manufacturing; laminate foil consisting primarily of plastic with or without a metal layer for application to a substrate; stamping foils primarily of plastics; hot stamping foils primarily of plastics; cold stamping foils primarily of plastics; transfer foils primarily of plastics for manufacturing purposes; thermal transfer foils primarily of plastics for manufacturing purposes; laminating foils primarily of plastics; foils, strips and bands primarily of plastics coated with adhesives for use in production; semi-finished products primarily of plastics with adhesives in form of foils, strips and bands for manufacturing purposes; semi-finished plastic products for industrial purposes in further manufacturing for use in a variety of industries, namely, foils, films, laminates, pellets, powder, foams, gels, liquids, sheets, fibers, strips and bands; semi-finished plastic products and semi-finished artificial resins for further manufacturing, particularly hardenable by means of ultra-violet radiation, namely, foils, films, laminates, pellets, powder, foams, gels, liquids, sheets, fibers, strips and bands; liquid or solid semi-finished plastics and artificial resins for further manufacturing; liquid or solid semi-finished plastics and artificial resins for further manufacturing for application by means of screen printing, flexographic printing, gravure printing, offset printing or inkjet printing; semi-finished artificial resin and synthetic resin products in form of pellets, powder, rods, foils, foams, gels, liquids, fibers, films, strips, bands and sheets~~]

40 - Providing information relating to woodworking; rental of machines and apparatus for lumbering; rental of machines and apparatus for wood-working

7 - Boring machines for use in woodworking; electric wood saw machines; woodworking machines, namely, sanding machines, wood sawing machines, wood grinding machines, wood drilling machines, wood cutting machines, wood polishing machines, laser engraving machines for woodworking, jigsaws, electric trimmers, die grinders, circular saws, electric routers, miter saws, table saws; wood milling machines; wood grippers being parts of machines; wood planing machines; wood milling machines; wood chipping machines; industrial robots for working wood; industrial robots for shaping wood; circular saws for woodworking; mechanical system control instruments, namely, hydraulic and pneumatic controls for machines; robotic mechanisms for working wood; machine tools for woodworking machines; all the aforementioned goods in particular in the field of woodworking and woodworking machines and installations

9 - Computer software for controlling communication between computers and automated machine systems for processing wood; automatic control apparatus, namely, power controllers; computer software for communication between computers over a local network; data and image processing software for making three dimensional models; data collection apparatus, namely, electric sensors and electronic motion sensors for use with woodworking machinery; apparatus for the transmission of data; data transmission networks, namely, computer hardware for data transmission in the nature of communicating audio, video and data between computers via a global computer network; electrical controllers; electric installations for the remote control of industrial operations; electrical controlling devices; electronic controllers for woodworking machines; software for remote diagnostics of woodworking machines; downloadable computer software for the transmission of data; numerical control apparatus for woodworking machines; industrial process control and optimization software for woodworking; programmable power controllers; operating software for woodworking machines; software for automatic data transfer from joining and woodworking programs; software for generating lists for construction projects, in particular parts lists, saw mill lists, measurement lists; industrial process control software; control software, in particular for woodworking machines; electronic programmable logic controllers; connecting modules for electric controls; all the aforementioned goods, in particular in the field of woodworking and woodworking machines and installations

37 - Repair, installation or maintenance of woodworking machines and apparatus; all the aforementioned services in particular in the field of woodworking and woodworking machines and installations

42 - Design and development of computer hardware and software; updating of computer software; updating of software for embedded devices; updating and adapting of computer programs according to user requirements; technological consultation services in the area of control technology; creation of control programs for electric operation control and drive modules; development of systems for the transmission of data; creation, updating and adapting of computer programs; creation, maintenance and adaptation of software; remote diagnostics of woodworking machines; maintenance of computer software by remote access; programming of electronic control systems; all the aforementioned services in particular in the field of woodworking, and woodworking machines and installations

Goods & Services:

9 - [Computer hardware;] Computer software for securely processing and storing data for the purposes of security, isolation, trust, integrity, authentication and confidentiality; [electronic data downloadable from a website in the nature of security keys for computer software; electronic databases in the fields of authentication, identification and computer security, recorded on computer media; computer servers; mobile computing devices, namely, electronic tablet computers, mobile telephones, smart phones, smart watches and smart glasses smart televisions; digital cameras; GPS navigation devices; personal media players; network routers; data switches, namely, telecommunication switches, network switches and Ethernet switches; data gateways, namely, Internet routers; telecommunication base stations; disk drives; solid state discs, namely, solid state computer memory; audio apparatus for automobiles, namely, compact disc players, radios and stereos; on-board computers for automobiles; home theatre components, namely, digital music and video streaming boxes, video on demand boxes and in-home digital media streaming devices; electricity meters; integrated circuits; microprocessors; microprocessor cores; macro cells, namely, components of integrated circuits and memory structures; microcontrollers; system-on semiconductor and computer memory chips; printed circuit boards; secure microprocessor cores; hardware-assisted computer security products, namely, secure platform modules and cryptography code processors; computer hardware for digital security;] computer software for protecting and securing computer applications; [computer hardware for encrypting and authenticating data;] computer software for encrypting and authenticating data; computer software for digital security; application software for securely processing and storing data for the purposes of security, isolation, trust, integrity, authentication and confidentiality; operating system software; computer software for the design, development, [modeling, simulation,] compiling, de-bugging, verification [construction, interconnecting] and interfacing of all of the aforesaid goods; all of the aforesaid goods providing secure data handling and transmission; electronic publications, namely, [books, magazines,] manuals, [e-zines] and audio-visual clips featuring information relating to computer security recorded on computer media

42 - Providing a website featuring technology that enables users to access information, data and support relating to digital security; research, development, design and upgrading of computer software; computer software and [hardware] consultancy in the fields of selection, implementation and use of computer software and [hardware] systems; computer software [and hardware] technical support services, namely, providing support and assistance in relation to the design and development of computer software [and hardware] and troubleshooting in the nature of diagnosing and remedying computer software [and hardware] problems, all relating to [electrical and electronic equipment, computer hardware,] computer software, [electronic data, electronic databases, electronic data carriers, including compact discs, computer servers, mobile computing devices, electronic tablets, mobile telephones, smart phones, smart televisions, handheld game consoles, digital cameras, GPS navigation devices, personal media players, routers, data switches, data gateways, base stations, disk drives, solid state discs, automotive entertainment systems, home entertainment systems, electricity meters, integrated circuits, microprocessors, microprocessor cores, macro cells, microcontrollers, system-on chips, printed circuit boards, secure microprocessor cores, hardware-assisted computer security products, computer hardware for digital security,] computer software for protecting and securing computer applications, [computer hardware for encrypting and authenticating data, computer software for encrypting and authenticating data,] computer software for digital security, [application software,] operating system software, computer software for the design, development, [modeling, simulation,] compiling, de-bugging, verification [construction, interconnecting] and interfacing of all of the aforesaid goods

16 - [Printed matter, namely, instruction, technical, reference and development manuals, datasheets and brochures all in the field of design, development, use, and testing of electrical and electronic equipment, computer hardware, computer software, electronic data, electronic databases, electronic data carriers, including compact discs, computer servers, mobile computing devices, electronic tablets, mobile telephones, smart phones, smart televisions, handheld game consoles, digital cameras, GPS navigation devices, personal media players, routers, data switches, data gateways, base stations, disk drives, solid state discs, automotive entertainment systems, home entertainment systems, electricity meters, integrated circuits, microprocessors, microprocessor cores, macro cells, microcontrollers, system-on chips, printed circuit boards, secure microprocessor cores, hardware-assisted computer security products, computer hardware for digital security, computer software for protecting and securing computer applications, computer hardware for encrypting and authenticating data, computer software for encrypting and authenticating data, computer software for digital security, application software, operating system software, computer software for the design, development, modeling, simulation, compiling, de-bugging, verification, construction, interconnecting and interfacing of all of the aforesaid goods]

41 - [Education services, namely, provision of training in the fields of design, development, use and testing of electrical and electronic equipment, computer hardware, computer software, electronic data, electronic databases, electronic data carriers, including compact discs, computer servers, computer servers, mobile computing devices, electronic tablets, mobile telephones, smart phones, smart televisions, handheld game consoles, digital cameras, GPS navigation devices, personal media players, routers, data switches, data gateways, base stations, disk drives, solid state discs, automotive entertainment systems, home entertainment systems, electricity meters, integrated circuits, microprocessors, microprocessor cores, macro cells, microcontrollers, system-on chips, printed circuit boards, secure microprocessor cores, hardware-assisted computer security products, computer hardware for digital security, computer software for protecting and securing computer applications, computer hardware for encrypting and authenticating data, computer software for encrypting and authenticating data, computer software for digital security, application software, operating system software, computer software for the design, development, modeling, simulation, compiling, de-bugging, verification, construction, interconnecting and interfacing of all of the aforesaid goods]

45 - [Licensing of intellectual property rights, all relating to electrical and electronic equipment, computer hardware, computer software, electronic data, electronic data provided from a website, electronic databases, electronic data carriers, including compact discs, computer servers, mobile computing devices, electronic tablets, mobile telephones, smart phones, smart televisions, handheld game consoles, digital cameras, GPS navigation devices, personal media players, routers, data switches, data gateways, base stations, disk drives, solid state discs, automotive entertainment systems, home entertainment systems, electricity meters, integrated circuits, microprocessors, microprocessor cores, macro cells, microcontrollers, system-on chips, printed circuit boards, secure microprocessor cores, hardware-assisted computer security products, computer hardware for digital security, computer software for protecting and securing computer applications, computer hardware for encrypting and authenticating data, computer software for encrypting and authenticating data, computer software for digital security, application software, operating system software, computer software for the design, development, modeling, simulation, compiling, de-bugging, verification, construction, interconnecting and interfacing of all of the aforesaid goods]

Goods & Services:							
35 - Design of advertising materials with respect to the development of visualization technologies for advertisement, sales, selection and implementation of light installations; providing advertising space on free-standing visual advertising systems featuring the goods and services of others, namely, lighting fixtures and lighting systems and virtual- and augmented-reality headsets and their performance; design of advertising materials with respect to the development of visualization technologies for advertisement, sales, selection and implementation of light installations; providing virtual reality, augmented reality and mixed reality product information for visualizing lighting fixtures and lighting systems and virtual- and augmented reality headsets including heads-up displays, and their performance; providing services of data processing in the field of biometrics 5 - Dietary supplements in the nature of circadian-effective vitamins and melatonin-promoting preparations for dispensing in conjunction with circadian-effective lighting programs configured for individual end-users; dietary supplements in the nature of vitamin D or a B-vitamin for dispensing in conjunction with lighting programs configured for individual end-users; dietary supplements for dispensing to medical patients for consumption in conjunction with circadian-effective lighting programs 9 - Components for lights, namely, components for lamps, light fixtures, and lighting systems; components for lights having light emitting diodes (LEDs); LED light components, namely, LED modules, power supplies, drivers, and wiring; circuit boards for lights; drivers for lights; electric light switches; light control apparatus; light controls; electronic regulating and control devices for the operation of lights; electric light control panels and control devices; light configuration and operation systems for residential, commercial and industrial facilities; illumination ecosystems for building lights; high-frequency switching power supplies for lights; power supplies for lights; illumination regulators; power controllers for lights; programmable electronic controllers for lights; electronic control gears (ECGs) for lights; Internet of things (IoT)-enabled microcontrollers for lights; wireless controllers to remotely monitor and control the function, status, and illumination outputs of other electrical, electronic, and mechanical devices and systems, namely, lights, security systems, illumination ecosystems, and home- and office-appliances; electric control devices for light management and for controlling indoor and outdoor lights; light controls for illumination by indoor and outdoor lights; electric light dimmers; lights for illumination of signs and displays; electronic illumination sensors; LED- and light-position sensors; occupancy sensors, namely, electronic devices that detect the presence of occupants and accordingly control lights; security lights for outdoor use; flashing and steady safety lights; motion-sensitive lights and security lights; light configuration and operation software for use in residential, commercial and industrial facilities; computer hardware and software systems for facilities management, namely, systems for controlling building access, lights, illumination ecosystems, and security systems; operating system software for lights; computer hardware and software systems for designing, configuring and operating lights; computer hardware and software systems for design, development, configuration, customization, simulation, quotation, manufacture, procurement, installation, connection, programming, implementation, control, operation, networking, and updating of home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the Internet of Things (IoT), and of home and office systems having wireless or wired controllers, controlled devices, and software for lights and for security, safety, and home and office monitoring and control systems, and of home and office systems for remote and direct control of and networked, mobile, application (App)-, radio frequency identification device (RFID), Bluetooth (R), WiFi (R), cellular, Internet Cloud-, and Internet-of-Things- based communications with lights and with home- and office-appliances; downloadable Cloud-based software for designing, configuring and operating lights by a Cloud computing platform; computer-aided design (CAD) software for designing light installations; transmitters, receivers, and controllers for monitoring and controlling lights; computer-based and mobile application (App)-capable apparatus for designing the layout of light installations; and computer hardware and software systems enabling users to configure and operate lights; downloadable computer programs for evaluating or measuring sleeping conditions; downloadable computer programs for evaluating or measuring circadian rhythms and internal body clocks; downloadable computer programs for advising or diagnosing sleeping conditions, circadian rhythms, and internal body clocks; downloadable computer programs for providing information regarding sleeping conditions, circadian rhythms, and internal body clocks; downloadable computer programs for issuing documents on diagnosis information to people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; downloadable software in the field of healthcare and wellness for generating circadian-effective light in a residential, commercial or industrial space; downloadable software in the field of healthcare and wellness for delivering circadian-effective spectrally-optimized light in a residential, commercial or industrial space; downloadable software in the field of healthcare and wellness for controlling, monitoring and collecting illumination-, operational- and end-user sensing data from circadian-effective light-generating devices and wearable communication devices in a residential, commercial or industrial space; sensors for controlling, monitoring and generating illumination-, operational- and end-user sensing data in a residential, commercial or industrial space having inputs of circadian-effective light; downloadable software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; downloadable application software for measuring and monitoring vital signs, blood pressure and heart rate; downloadable application software for analyzing data in the field of biometrics; downloadable application software for data processing in the field of biometrics; downloadable application software for analyzing and processing bio-signal data; downloadable application software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; downloadable computer software for diagnosing diseases for medical purposes; data processors incorporating bio-sensors; wearable wireless augmented- and virtual-reality headsets and biometric information readers in the nature of activity trackers used for measuring and monitoring biometric, health and fitness data; downloadable mobile device software applications and computer software applications for measuring, tracking, analyzing, displaying, uploading, transmitting and aggregating data transmitted from multifunctional electronic devices and accessories worn by users to provide users with information and analysis with respect their sleep, physical activity, light exposure, fitness and other general health and wellness; downloadable mobile device software applications and computer software applications that communicate data to personal digital assistants, smart phones, augmented- and virtual-reality headsets, and personal computers through Internet websites and other computer and electronic communication networks to provide users with information and analysis with respect to their sleep, physical activity, light exposure, fitness a							

and other general health and wellness; computer hardware and downloadable software systems for measurement and characterization of lighting fixture performance; downloadable computer operating system software for light configuration for residential, commercial and industrial facilities; downloadable light configuration software for use in residential, commercial and industrial facilities; computer hardware and downloadable software systems for configuring lights; downloadable computer software for the design and analysis of optical and photometric systems; downloadable computer programs using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; downloadable computer software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; recorded computer programs using machine learning, deep learning, data science, predictive analytics, automation and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; and recorded computer software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; computer hardware and recorded software systems for visualizing lighting fixtures and lighting systems and virtual- and augmented-reality headsets and their performance; computer hardware and recorded software systems for design, visualization, specification and installation of lighting for built environments; downloadable database management software for creating, managing, searching and accessing a database of lighting fixtures and associated performance and business metrics; computer hardware and recorded software systems for autonomous emotion-driven lighting design and specification; computer hardware and recorded software systems for measurement and characterization of lighting fixture performance; computer hardware and recorded software systems for modeling lighting fixtures; downloadable virtual reality, augmented reality and mixed reality software for design, visualization and specification of lighting fixtures and systems, and virtual- and augmented-reality headsets including heads-up displays; computer hardware and recorded software systems for measurement, calculation, visualization and characterization of a lighting fixture's electrical, mechanical, spectral, optical and photometric performance, both in the near-field and in the far-field, including but not limited to wattage, dimensions, spectral power distribution, spatial and angular light distribution; computer hardware and recorded software systems for advertising and marketing of lighting systems and fixtures; downloadable virtual reality, augmented reality and mixed reality software for visualizing lighting fixtures and lighting systems and virtual- and augmented-reality headsets including heads-up displays and their performance; recorded virtual reality, augmented reality and mixed reality software for visualizing lighting fixtures and lighting systems and virtual- and augmented-reality headsets including heads-up displays, and their performance; measuring and testing apparatus for determining properties of light, namely, radiance, luminance, chromaticity, reflectance, transmittance, scatter, bidirectional reflectance distribution function (brdf), bidirectional transmittance function (brtf), color, contrast, color temperature, spectral power distribution and illuminance; downloadable computer software for use in the field of virtual reality, augmented reality and mixed reality; downloadable software for use in enabling computers, handheld consoles, tablet computers, mobile devices, virtual- and augmented-reality headsets including heads-up displays and smart phones to provide virtual reality, augmented reality and mixed reality experiences; downloadable software for use in connection with virtual reality, augmented reality and mixed reality for creating, sharing, and viewing, content online over the internet; downloadable software for the visualization of lighting systems and virtual- and augmented-reality headsets including heads-up displays; software, recorded and downloaded, namely, programs for the design, planning, simulation, visualization, in the nature of depicting the design in three-dimensional graphic design and analysis, of installations for lighting; downloadable computer software for lighting effect visualizations; downloadable software for characterizing, mapping and displaying both the spatial and angular distribution of light radiating from light sources; downloadable computer software for the design and analysis of optical and photometric systems; downloadable software for measuring the properties of light, namely, radiance, luminance, chromaticity, reflectance, transmittance, scatter, bidirectional reflectance distribution function (brdf), bidirectional transmittance function (brtf), color, contrast, color temperature, spectral power distribution and illuminance; downloadable computer software for use in connection with virtual reality, augmented reality and mixed reality systems enabling users to visualize lighting fixtures and lighting systems and virtual- and augmented-reality headsets including heads-up displays and their performance; virtual- and augmented-reality headsets including heads-up displays for operation in communication with lighting fixtures and lighting systems; virtual- and augmented-reality headsets including heads-up displays for operation in communication with lighting fixtures and lighting systems located in a physical space, namely, a gym, a hotel, a health clinic, or a vehicle; wearable virtual- and augmented-reality headsets; downloadable virtual reality, augmented reality and mixed reality software for visualizing a physical space containing lighting fixtures and lighting systems and virtual- and augmented-reality headsets including heads-up displays and their performance; downloadable virtual reality, augmented reality and mixed reality software for visualizing and determining dimensions of a physical space including defined walls, floors, windows, ceilings, and furnishings, and for utilizing artificial intelligence for selecting recommended circadian-effective lighting fixtures and lighting systems and virtual- and augmented-reality headsets for utilization in the physical space; downloadable virtual reality, augmented reality and mixed reality software for generating a bill of materials for lighting fixtures and lighting systems and virtual- and augmented-reality headsets for installation and utilization in a selected physical space including fixture and system configuration and installation instructions, light modeling and performance specifications for the lighting fixtures and lighting systems, fixture and system hardware and headset installation price quotations, and order input, order processing, and order shipment; circadian-effective contact lenses and spectacles; contact lens- and spectacle-light-monitoring systems for measuring, controlling and limiting light that passes through the lens or spectacles; circadian-effective contact lenses and spectacles that filter or spectrally control the light that passes through the lens or spectacles; circadian-effective contact lenses and spectacles that filter out blue light; baby monitors generating sleep-promoting white noise

10 - Phototherapeutic apparatus for medical purposes, namely, a light-emitting diode (LED) light source for medical treatments; light-emitting diode apparatus for lighting, incorporated into medical instruments; medical devices for treating sleep disorders; sensory light therapy units; sensors for medical use to be worn by a human to gather human biometric data; wearable monitors used to measure biometric data for medical use; light emitting devices, namely, lamps and light-emitting diode (LED) devices for treatment of a variety of skin conditions; circadian rhythms adjustment lamps, for medical purposes; ultraviolet lamps for medical purposes; ultraviolet radiator units for therapeutic purposes; ultraviolet ray lamps for medical purposes; circadian-effective lighting fixtures and systems; phototherapeutic apparatus for medical purposes, namely, a circadian-effective light-emitting diode (LED) light source for medical treatments; circadian-effective light-emitting diode apparatus for lighting, incorporated into medical instruments; circadian-effective medical devices for treating sleep disorders; sensory circadian-effective light therapy units; sensors for medical use to be worn by a human to gather human circadian-related data; wearable monitors used to measure biometric data including circadian rhythms for medical use; light emitting devices, namely, lamps and light-emitting diode (LED) devices for treatment of seasonal-affective disorders; circadian rhythms adjustment lamps, for medical purposes; ultraviolet lamps for medical purposes; ultraviolet radiator units for therapeutic purposes; ultraviolet ray lamps for medical purposes; circadian-effective lighting fixtures and systems

11 - Lights, namely, lamps, light fixtures, and lighting systems; lights having light emitting diodes (LEDs); lights having LED light engines; spot lights; luminaires; LED light components, namely, LED modules, power supplies, drivers, and wiring; light installations; landscape lights; underwater lights; strip lights; accent lights for indoor use; track lights; LED light machines; flood lights; work lights; light strips for decorative purposes; sconce lights; wall lights; mood lights; lights for illumination of signs and displays; down-lights; recess lights; cove lights; graze lights; wall-wash lights; asymmetric lights; lights for producing a line-of-light; electric lights; LED lights, namely, lights using LEDs as their illumination source; lights having organic light emitting diodes (OLEDs); electric light bulbs; hanging lights; safety lights; pendant lights; light post luminaires; lights having electric light bulbs; overhead lights; landscape light installations; lighting fixtures; LED light bulbs; LED light fixtures; LED lights for use in display, commercial, industrial, residential, and architectural-accent lighting applications; ceiling lights; light bulbs; LED lights for indoor and outdoor lighting applications; lights for illumination of stairs, doors and other portions of buildings; lights for illumination of signs and displays; and lights for commercial lighting and for architectural lighting applications; circadian rhythms adjustment lamps, not for medical purposes; sanitizing apparatus using ultraviolet light for sanitizing air, not for medical purposes; air cleaning units containing an air filter and ultraviolet lights and a photocatalytic filter; ultraviolet lamps not for medical purposes; ultraviolet ray lamps, not for medical purposes; electric air sanitizing units; sterilizers not for medical purposes; sterilization units for medical purposes; air sterilizers; air sterilizing apparatus; air sterilizers for household purposes; air purifiers; air purifying apparatus; air purification units; air purifying apparatus and machines; air purifiers for household purposes; industrial air purifiers; germicidal lamps for purifying air; air cleaning units; air exchangers for cleaning and purifying air; portable air conditioners; disinfectant apparatus for medical purposes; sterilization units not for medical purposes; disinfectant apparatus not for medical purposes; air sterilization units that move air through ultraviolet light not for medical purposes; continuous air disinfection units not for medical purposes; sterilization units for medical purposes; sanitizing apparatus using ultraviolet light for sanitizing air for medical purposes; sterilizers for medical purposes; air sterilization units that move air through ultraviolet light for medical purposes; continuous air disinfection units for medical purposes; lighting systems in the field of healthcare and wellness for generating circadian-effective light in

a residential, commercial or industrial physical space; lighting systems in the field of healthcare and wellness for delivering circadian-effective spectrally-optimized light in a residential, commercial or industrial space; lighting systems in the field of healthcare and wellness for controlling, monitoring and collecting data for circadian-effective light in a residential, commercial or industrial space; lighting systems for generating, controlling, and monitoring circadian-effective light; lighting systems having sensors for controlling and monitoring circadian-effective light

37 - Providing a website featuring information in the field of lighting apparatus installation for use by architectural designers and other customers; technical consultation in the field of installation of lighting apparatus, lighting instruments, lighting systems and virtual- and augmented-reality headsets, namely, providing services of providing measurement and characterization of lighting fixture and headsets performance; technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems and virtual- and augmented-reality headsets, namely, providing services of providing light configurations for residential, commercial and industrial facilities; technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems and virtual- and augmented-reality headsets, namely, providing services of providing light configurations for use in residential, commercial and industrial facilities; technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems and virtual- and augmented-reality headsets, namely, providing services of configuring lights; sterilization services in the field of air purification; sterilization services in the field of air purification by exposure to ultraviolet light for medical and non-medical purposes; continuous air disinfection services

42 - Providing temporary online use of non-downloadable software applications for designing, configuring and operating lights, namely, lamps, light fixtures, and lighting systems; providing temporary online use of non-downloadable software applications for designing, configuring and operating lights having light emitting diodes (LEDs); providing temporary online use of non-downloadable software applications for configuring and/or operating lights; providing temporary online use of non-downloadable software applications for configuring and operating lights in residential, commercial and industrial facilities; providing temporary online use of non-downloadable software applications for designing, configuring and operating lights by a Cloud computing platform; providing temporary online use of non-downloadable computer-aided design (CAD) software applications for designing light installations; providing temporary online use of non-downloadable software applications for facilities management, namely, configuring and operating building access, lights, illumination ecosystems, and security systems; providing temporary online use of non-downloadable software applications for remotely monitoring and controlling the function, status, and illumination outputs of other electrical, electronic, and mechanical devices and systems, namely, lights, security systems, illumination ecosystems, and home- and office-appliances; providing temporary online use of non-downloadable software applications for design, development, configuration, customization, simulation, quotation, manufacture, procurement, installation, connection, programming, implementation, control, operation, networking, and updating of home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the Internet of Things (IoT), and of home and office systems having wireless or wired controllers, controlled devices, and software for lights and for security, safety, and home and office monitoring and control systems, and of home and office systems for remote and direct control of and networked, mobile, application (App)-, radio frequency identification device (RFID), Bluetooth (R), WiFi (R), cellular, Internet Cloud-, and Internet-of-Things- based communications with lights and with home- and office-appliances; providing temporary online use of non-downloadable software applications featuring technology enabling users to configure and operate lights; design, configuration and implementation of lights; design, configuration and implementation of lights having LEDs; design, configuration and implementation of lights in residential, commercial and industrial facilities; design, configuration and implementation of light installations; services of remotely monitoring and controlling the function, status, and illumination outputs of other electrical, electronic, and mechanical devices and systems, namely, lights, security systems, illumination ecosystems, and home- and office-appliances; services of design, development, configuration, customization, simulation, quotation, manufacture, procurement, installation, connection, programming, implementation, control, operation, networking, and updating of home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the Internet of Things (IoT), and of home and office systems having wireless or wired controllers, controlled devices, and software for lights and for security, safety, and home and office monitoring and control systems, and of home and office systems for remote and direct control of and networked, mobile, application (App)-, radio frequency identification device (RFID), Bluetooth (R), WiFi (R), cellular, Internet Cloud-, and Internet-of-Things- based communications with lights and with home- and office-appliances; interior and exterior architectural light design services; light design consultation; design of lighting installations; light design services; light design and light technology specification services pertaining to permanent or temporary architectural, theatrical, entertainment, commercial and/or residential light applications; design of specialty interior and exterior light installations; interior and exterior light design; planning and layout design services for light installations; consulting in the field of the design of light installations; custom design and development of light installations; design of interior and exterior lights; custom design of light installations based on personal selections made by the customer; visual design services in the nature of designing aesthetic visual elements for representation and selection of light installations; design and development of visualization technologies for advertisement, sales, selection and implementation of light installations; providing a website featuring information in the field of light design, configuration and installation for use by architectural designers and other customers; online use of non-downloadable computer programs for advising or diagnosing sleeping conditions, circadian rhythms, and internal body clocks; providing temporary online use of non-downloadable computer programs for providing information regarding sleeping conditions, circadian rhythms, and internal body clocks; providing temporary online use of non-downloadable computer programs for issuing documents on diagnosis information to people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; providing temporary online use of non-downloadable computer programs for providing diagnosis information for people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; providing temporary online use of non-downloadable software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; providing temporary online use of non-downloadable application software for measuring and monitoring vital signs, blood pressure and heart rate; providing temporary online use of non-downloadable application software for analyzing data in the field of biometrics; providing temporary online use of non-downloadable application software for data processing in the field of biometrics; providing temporary online use of non-downloadable application software for analyzing and processing bio-signal data; providing temporary online use of non-downloadable application software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; providing temporary online use of non-downloadable computer software for diagnosing diseases for medical purposes; providing temporary online use of non-downloadable data processors incorporating bio-sensors; providing temporary online use of non-downloadable wireless biometric information readers used for measuring and monitoring biometric, health and fitness data; providing temporary online use of non-downloadable mobile device software applications and computer software applications for measuring, tracking, analyzing, displaying, uploading, transmitting and aggregating data transmitted from multifunctional electronic devices and accessories worn by users to provide users with information and analysis with respect to their sleep, physical activity, light exposure, fitness and other general health and wellness; providing temporary online use of non-downloadable software in the field of healthcare and wellness for generating circadian-effective light in a residential, commercial or industrial space; providing temporary online use of non-downloadable software in the field of healthcare and wellness for delivering circadian-effective spectrally-optimized light in a residential, commercial or industrial space; providing temporary online use of non-downloadable software in the field of healthcare and wellness for controlling, monitoring and collecting illumination-, operational- and end-user sensing data from circadian-effective light-generating devices in a residential, commercial or industrial space; providing temporary online use of non-downloadable mobile device software applications and computer software applications that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks to provide users with information and analysis with respect to their sleep, physical activity, light exposure, fitness and other general health and wellness; providing temporary online use of non-downloadable computer software for the design and analysis of optical and photometric systems; providing services of scientific data analysis in the field of biometrics; providing scientific analysis of bio-signal data; providing services of providing design and analysis of optical and photometric systems, namely, landscape lighting design; application service provider (ASP) featuring software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing a website featuring non-downloadable software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing on-line non-downloadable software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing temporary use of on-line non-downloadable cloud computing software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing temporary use of on-line non-downloadable software and applications using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in

the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; and software as a service (SAAS) services featuring software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; design of visualization technologies, and development of visualization technologies, for advertisement of the commercial products and business of others, namely, lighting fixtures and lighting systems; computer services, namely, electronic imaging of lighting fixtures and lighting systems and virtual- and augmented-reality headsets and their performance; custom development of lighting fixtures and lighting systems and virtual- and augmented-reality headsets and their performance; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and websites, of others in the fields of advertising and marketing of lighting systems and fixtures; design and development of virtual reality, augmented reality and mixed reality software; visual design services in the nature of designing aesthetic visual elements for representation and selection of light installations; providing temporary online use of non-downloadable software applications for design, visualization, specification and installation of lighting for built environments; providing an on-line searchable database featuring lighting fixtures and associated performance and business metrics; providing temporary online use of non-downloadable software applications for autonomous emotion-driven lighting design and specification; providing temporary online use of non-downloadable software applications for measurement and characterization of lighting fixture performance; providing temporary online use of non-downloadable software applications for modeling lighting fixtures; providing temporary online use of non-downloadable augmented reality, virtual reality and mixed reality software applications for the design, visualization and specification of lighting fixtures and systems, and virtual- and augmented-reality headsets including heads-up displays; providing temporary online use of non-downloadable software applications for measurement, calculation, visualization and characterization of a lighting fixture's electrical, mechanical, spectral, optical and photometric performance, both in the near-field and in the far-field, including but not limited to wattage, dimensions, spectral power distribution, spatial and angular light distribution; design of information graphics and data visualization materials; providing temporary online use of non-downloadable software applications for characterizing, mapping and displaying both the spatial and angular distribution of light radiating from light sources; providing temporary online use of non-downloadable software applications for measuring the properties of light, namely, radiance, luminance, chromaticity, reflectance, transmittance, scatter, bi-directional reflectance distribution function (brdf), bi-directional transmittance function (brtf), color, contrast, color temperature, spectral power distribution and illuminance; virtual reality, augmented reality and mixed reality software-as-a-service for visualizing lighting fixtures and lighting systems and virtual- and augmented-reality headsets including heads-up displays, and their performance; non-downloadable computer software as-a-service for use in connection with virtual reality, augmented reality and mixed reality systems enabling users to visualize lighting fixtures and lighting systems and their performance; non-downloadable computer software as-a-service for controlling and monitoring virtual- and augmented-reality headsets including heads-up displays for operation in communication with lighting fixtures and lighting systems; non-downloadable computer software as-a-service for controlling and monitoring virtual- and augmented-reality headsets including heads-up displays for operation in communication with lighting fixtures and lighting systems located in a physical space, namely, a gym, a hotel, a health clinic, or a vehicle; non-downloadable computer software as-a-service for controlling and monitoring wearable virtual- and augmented-reality headsets; non-downloadable software-as-a-service for visualizing a physical space containing lighting fixtures and lighting systems and virtual- and augmented-reality headsets including heads-up displays and their performance; non-downloadable computer software as-a-service for visualizing and determining dimensions of a physical space including defined walls, floors, windows, ceilings, and furnishings, and for utilizing artificial intelligence for selecting recommended circadian-effective lighting fixtures and lighting systems and virtual- and augmented-reality headsets for utilization in the physical space; non-downloadable computer software as-a-service for generating a bill of materials for lighting fixtures and lighting systems and virtual- and augmented-reality headsets for installation and utilization in a selected physical space including fixture and system configuration and installation instructions, light modeling and performance specifications for the lighting fixtures and lighting systems, fixture and system hardware and headset installation price quotations, and order input, order processing, and order shipment

44 - Providing services of evaluating or measuring sleeping conditions, namely, conducting sleep studies for medical diagnostic and treatment purposes; providing services of evaluating or measuring circadian rhythms and internal body clocks, namely, health screening services in the field of sleep; providing services of medical advisory and diagnostics in the field of sleeping conditions, circadian rhythms, and internal body clocks; providing services of providing medical information regarding sleeping conditions, circadian rhythms, and internal body clocks; providing medical information in the fields of improving or curing sleeping conditions and circadian rhythms; providing services of providing medical diagnosis information in the fields of improving or curing sleeping conditions and circadian rhythms; providing healthcare services in the field of analyzing, interpreting and storing collected biometric data; providing medical services of measuring and monitoring vital signs, blood pressure and heart rate; healthcare and wellness counseling services featuring of analyzing, interpreting and storing collected biometric data; providing services of diagnosing diseases for medical purposes; providing medical services incorporating bio-sensors; medical equipment rental services for wireless biometric information readers for measuring and monitoring biometric, health and fitness data; providing medical services for measuring, tracking, analyzing, displaying, uploading, transmitting and aggregating data transmitted from multifunctional electronic devices and accessories worn by users to provide users with information and analysis with respect their sleep, physical activity, light exposure, fitness and other general health and wellness

Goods & Services:

9 - Downloadable electronic publications, namely, magazines, newsletters, journals, books, reports on the subject of architecture, engineering, landscape design, construction, building regulations, construction and building industries; downloadable multi-media recordings and publications, namely, reports, audio-visual recordings on the subject of architecture, engineering, landscape design, construction, building regulations, the construction and building industries; downloadable computer software and computer programs for use in creating specifications, creating models, creating workflows and schedules of work, managing, tracking, designing documents and data related to engineering, landscape design, building regulations, construction diagrams, plans and blueprints for the construction and building industries; data recorded in electronic, optical or magnetic form relating to architecture, engineering, landscape design, construction, building regulations for the construction and building industries; pre-recorded data carriers containing information and data relating to architecture, engineering, landscape design, construction, building regulations for the construction and building industries; downloadable audio and visual recordings and pre-recorded videos on the subject of architecture, engineering, landscape design, construction, building regulations for the construction and building industries; CDs, CDIs, CD-ROMS all comprised of information and data relating to architecture, engineering, landscape design, construction, building regulations for the construction and building industries; computer discs, cassettes and other data carriers containing information recorded in magazine form relating to architecture, engineering, landscape design, construction, building regulations for the construction and building industries; computer databases, namely, downloadable databases relating to architecture, engineering, landscape design, construction, building regulations and the construction and building industries; all the aforesaid relating to architecture, landscaping and construction

16 - Printed matter and printed publications, namely, newsletters, newspapers, magazines, journals, books, instructional and teaching materials, periodical publications, directories, brochures, guides, printed programs and reports all of the aforementioned relating to architecture, engineering, landscape design, construction, building regulations for the construction and building industries; signs and signboards, namely, printed paper and cardboard signs; stationery; drawing implements, namely drawing rulers, drawing compasses, drawing triangles; pens, pencils; diaries; calendars

35 - Media and public relations services relating to architecture, engineering, landscape design, construction and building industries; compilation and provision of trade information relating to architecture, engineering, landscape design, construction and building industries; business data analysis services relating to architecture, landscaping and construction; provision of information relating to trade, regulations and management services relating to architecture, engineering, landscape design, construction and building industries; arranging, conducting and production of exhibitions, trade shows and events for business or commercial purposes relating to architecture, engineering, landscape design, construction and building industries; business project management for building, construction and civil engineering projects; business management services for design, construction, maintenance, installation and repair of buildings and civil engineering structures; sourcing and procurement of materials, namely, procuring contracts for the sale and purchase of goods and services for third parties relating to the engineering, landscape design, construction and building industries; business supervision and management of sub-contractors relating to the engineering, landscape design, construction and building industries; conducting economic feasibility studies relating to engineering, landscape design, construction and building industries; provision, preparation and compilation of business reports, surveys, project studies and statistical information relating to the engineering, landscape design, construction and building industries; business relocation services; information, advice and consultancy services relating to the aforesaid services

37 - Consultancy and advisory services relating to construction and building; consultancy and advisory services relating to the installation, maintenance, servicing and repairing of buildings and constructions; construction services, namely, the planning, lay out and construction of residential and commercial buildings; construction consultancy; construction, building, maintenance, installation, cleaning, renovation, restoration, upgrading, enhancement and repair services of residential and commercial properties and civil engineering structures; real estate property development services; building demolition services; building construction supervision services for building projects; supervision of construction projects; plumbing; installation of electrical and gas lines and connections in buildings and construction sites; information relating to construction and building provided on-line from computer databases or the Internet; provision of information relating to construction and building for accessing via communication and computer networks; construction consultancy; information, advice, consultancy and the preparation of reports, all relating to the aforesaid services

41 - Publishing services, namely, publishing of printed matter, periodical publications, printed publications, books, journals, reports, newsletters and magazines in the field of architecture, engineering, landscape design, construction, building regulations, construction and building industries; publication of non-downloadable material in the nature of magazines, journals, newsletters, newspapers, reports, blogs which can be accessed from online databases or from the Internet in the field of architecture, engineering, landscape design, construction, building regulations, construction and building industries; electronic publishing of publications in the field of architecture, engineering, landscape design, construction, building regulations, construction and building industries; educational and training services, namely, seminars, workshops, classes, conferences, webinars in the field of architecture, engineering, landscape design, construction, building regulations, construction and building industries; arranging and conducting educational shows, courses, conferences, exhibitions, events and seminars in the field of architecture, engineering, landscape design, construction, building regulations; advisory services relating to educational options to pursue career opportunities relating to architecture, engineering, landscape design, construction, building regulations, construction and building industries; lending library services; advice and information consultancy services relating to the aforesaid services; all the aforesaid relating to architecture, landscaping and construction

42 - Providing information relating to architectural design on-line from computer databases or the Internet; provision of information relating to architectural design, for accessing via communication and computer networks; creating, maintaining and updating computer software for use in creating specifications, creating models, creating workflows and schedules of work, managing, tracking, designing documents and data related to architecture, engineering, landscape design, building regulations, construction diagrams, plans and blueprints for the construction and building industries; rental of computer programs for creating specifications, creating models, creating workflows and schedules of work, managing, tracking, designing documents and data related to architecture, engineering, landscape design, building regulations, construction diagrams, plans and blueprints for the construction and building industries; architecture services; consultancy services relating to architecture; engineering design services; engineering and construction research services; engineering services; civil and structural engineering services; information technology consultancy services; research, consultancy, development and testing services, all relating to engineering and design services; design services, namely, architectural design, industrial design; industrial design; planning and design of buildings and structures; interior design; planning and design of building interiors relating to architecture, engineering, landscape design, construction, building regulations, construction and building industries; engineering and technical drawing services relating to architecture, engineering, landscape design, construction, building regulations, construction and building industries; architectural services; design of commercial developments; management of architectural and interior design projects; engineering services, namely, preparation of reports relating to technical project studies for construction projects; civil engineering services; developing quality control standards for building and construction services; information, advice and consultancy relating to the aforesaid services

Goods & Services:

38 - Communication services, namely, providing electronic transmission of information stored in a database via interactively communicating computer systems; communication network services, namely, electronic transmission of data and documents by data networks and users of computers; Internet services, namely, providing access to information on the internet concerning digital architecture solutions within a business and technology including application portfolio management, business capability management, business and IT Roadmapping, Business Processing Analysis, Cyber and Risk Management and Governance, Risk and Compliance; electronic data transmission; Communication network services, namely, providing user access to computer programmes in data networks; Telecom communications services, namely, providing user access to computers via global computer networks for business and technology management; Internet services, namely, providing access to content, platforms and portals on the internet in relation to digital architecture and digital transformation; Electronic transmission of data and documents via computer terminals; information, advisory and consultancy services in relation to the aforesaid services, namely, in the fields of telecommunication networks, communication networks, and Internet networks

9 - Downloadable cloud computing software for analysing and implementing digital architecture within a business and technology including application portfolio management, business capability management, business and IT Roadmapping, Business Processing Analysis, Cyber and Risk Management and Governance, Risk and Compliance; downloadable cloud network monitoring software; Downloadable software applications for analysing and implementing digital architecture within a business and technology including application portfolio management, business capability management, business and IT Roadmapping, Business Processing Analysis, Cyber and Risk Management and Governance, Risk and Compliance; computer networks servers; computers and computer peripheral devices; Downloadable computer software for the monitoring of computer systems; Downloadable computer software for content repository, namely, for management of databases; Downloadable computer software that enables digital transformation in the field of analysing and implementing digital architecture solutions within a business and technology including application portfolio management, business capability management, business and IT Roadmapping, Business Processing Analysis, Cyber and Risk Management and Governance, Risk and Compliance; Downloadable computer software for use in sharing, processing, tracking, calculating, measuring and analyzing information in relation to technology performance, business performance, technology productivity, digital transformation, risk management; Downloadable business process management [BPM] and computer security software; downloadable cloud-computing software for use in assessing technology performance, business performance, technology productivity, digital transformation, risk management; downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Downloadable operational risk management software; data communications and management software, downloadable; data and file management and database management software, downloadable; downloadable electronic publications in the nature of guidelines, instructions and teaching materials in the field of digital architecture and digital transformation

42 - Design and development of computer hardware and software; design and development of computer hardware and software for content repository and a digital library; design and development of operating software for cloud computing networks; design and development of cloud software that enables digital transformation; technological consulting services for digital transformation; computer software consultancy; computer modelling services; computer system analysis; computer system design; monitoring of computer systems by remote access to ensure proper functioning; maintenance of computer software; installation of computer software; computer software design; updating of computer software; information technology [IT] consultancy services; Providing technology information relating to computer software provided on-line from a global computer network or the internet; software as a service (SAAS) featuring software for analysing and implementing digital architecture solutions within a business and technology including application portfolio management, business capability management, business and IT Roadmapping, Business Processing Analysis, Cyber and Risk Management and Governance, Risk and Compliance; platform as a service (PaaS) featuring computer software platforms for analysing and implementing digital architecture solutions within a business and technology including application portfolio management, business capability management, business and IT Roadmapping, Business Processing Analysis, Cyber and Risk Management and Governance, Risk and Compliance; platform as a service (PAAS) featuring computer software platforms for digital transformation in the nature of integrating digital technology into a business; rental of web servers; server hosting; Consulting in the field of IT project management; Technology consultation services, namely, research, development, design, testing, monitoring, inspection, and analysis in the fields of telecommunications, computers, computer systems, computer software and computer networks; rental of data management computer software; Technology consultation services, namely, design of electronic data processing systems; computerized electronic data storage; online electronic data storage; design and development of electronic data security systems; Technology consultation services, namely, analysis of technical data in the field of cloud hosting, cloud computing, data management software; Consulting services in the field of cloud computing services; Computer services, namely, cloud hosting provider services; Technical support services, namely, troubleshooting in the nature of diagnosing of computer hardware and software problems; application service provider, namely, hosting, managing, developing, analyzing, and maintaining computer applications, software of others in the fields of technology performance, business performance, technology productivity, digital transformation, risk management; business technology software consultation services; providing temporary use of online non downloadable computer software for use in sharing, processing, generating, tracking, calculating, measuring, reporting, and analyzing information in the fields of technology performance, business performance, technology productivity, digital transformation, risk management; Technology consultation services in the field of provision and setting of operational standards, (namely the provision of information to accredited partners regarding the business standards relating to business operations that they required to meet) for business and project management services; Technology consultation services in the nature of providing risk assessment programmes and safety assessment programmes for information technology (IT) systems; consultancy services relating to computer software systems and computer software programmes; Technology advisory and consultancy services relating to the aforesaid services; Technology consultation services in the field of benchmarking and technical testing of computer software; disaster recovery planning for information technology (IT) systems; information technology (IT) safety and security advice and consultancy; scientific and technological services, namely, research and design in the field of integrated system architecture that allows for the rapid development of highly interactive and customizable learning applications; providing temporary use of non-downloadable computer software for sharing and tracking documents over computer networks, intranets and the internet; website portal design in the nature of website design consultancy; hosting website portals featuring information in the field of technology and software development, digital enterprise and digital transformation; Technology consultation services in the nature of technology

Goods & Services: 42 - Providing an online website featuring technology which enables users, namely, choral ensembles to manage their members, audience, and donors First use: Apr 23, 2014							
3	290.	POWERED BY KORRUS	 POWERED BY KORRUS	US (USPTO) 97679845	9, 10, 11, 35, 37, 38, 41, 42, 44, 45	KORRUS, INC.; _KORRUS, INC. Jay M. Brown BROWN & BROWN IP LAW PLLC, 1135 KILDAIRE FA RM RD., Jay M. Brown	Filed AD: Nov 16, 2022
Goods & Services: 38 - Providing access to wireless biometric information readers for measuring and monitoring biometric, health and fitness data in the nature of providing access to biometric data stored electronically in central files for remote consultation; providing electronic transmission of data from personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks to provide users with information and analysis with respect to their sleep, blood pressure, metabolic health, physical activity, light exposure, fitness and other general health and wellness information; providing electronic transmission of data utilizing machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling communications between networked devices in the internet of things (IoT) and communications utilizing in internet-enabled and connected lighting apparatus and light systems 9 - Components for lights, namely, components for lamps, light fixtures, and lighting systems, namely, LED drivers for lights and circuit boards for lights; components for lights having light emitting diodes (LEDs), namely, LED circuit boards; LED light components, namely, drivers and circuit boards; circuit boards for lights; drivers for lights, namely, LED drivers and LED circuit boards; electric light switches; light control apparatus; lighting controls; electronic regulating and control devices for the operation of lights; electric light control panels and current control devices; light configuration and operation systems for residential, commercial and industrial facilities, namely, light systems comprising light sensors and switches; illumination ecosystems for building lights, namely, illumination regulators; high-frequency switching power supplies for lights; power supplies for lights; illumination regulators; power controllers for lights; programmable electronic power controllers for lights; electronic control gears (ECGs) for lights; Internet of things (IoT)-enabled microcontrollers for lights; wireless controllers to remotely monitor and control the function, status, and illumination outputs of other electrical, electronic, and mechanical devices and systems, namely, lights, security systems, illumination ecosystems, and home- and office-appliances; electric control devices for light management and for controlling indoor and outdoor lights; lighting controls for illumination by indoor and outdoor lights; electric light dimmers; electronic illumination motion sensors; LED- and optical light-position sensors; occupancy sensors, namely, electronic motion recognizing and detecting sensors that detect the presence of occupants and lighting control apparatus; security lights for outdoor use; flashing and steady safety lights; motion-sensitive security lights and motion sensors for security lights; light configuration and operation software for use in residential, commercial and industrial facilities, namely, downloadable lighting control software for use in commercial and industrial facilities; computer hardware and software systems for facilities management, namely, computer hardware and recorded system software for controlling building access lights, illumination ecosystems, and security systems; recorded computer operating system software for lights; computer hardware and recorded computer operating system software							

ware for designing, configuring and operating lights; computer hardware and recorded computer operating system software for designing, developing, configuring, customizing, simulating, quoting, manufacturing, procuring, installing, connecting, programming, implementing, controlling, operating, networking, and updating of home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the internet of things (IoT), and of home and office systems having wireless or wired controllers, controlled devices; recorded operating software for lights and for security, safety, and home and office monitoring and controlling systems; home and office operating system software for remote and direct control of and networked, mobile, application, radio frequency identification (RFID) readers, wireless speakers; LAN (local area network) hardware, cellular, internet cloud, and internet-of-things based communications with lights and with home and office appliances; downloadable cloud-based software for designing, configuring and operating lights by a cloud computing platform; downloadable computer-aided design (CAD) software for designing light installations; telecommunications transmitters, mobile data receivers, and power controllers for monitoring and controlling lights; downloadable computer-based and mobile application software for designing the layout of light installations; computer hardware and recorded software enabling users to configure and operate lights; downloadable computer programs for evaluating and measuring sleeping conditions; downloadable computer programs for evaluating and measuring circadian rhythms and internal body clocks; downloadable computer programs for advising and diagnosing sleeping conditions, circadian rhythms, and internal body clocks; downloadable computer programs for providing information regarding sleeping conditions, circadian rhythms, and internal body clocks; downloadable computer programs for issuing documents on diagnosis information to people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; downloadable computer programs for providing diagnosis information for people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; downloadable software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; downloadable application software for measuring and monitoring vital signs, blood pressure and heart rate; downloadable application software for analyzing data in the field of biometrics; downloadable application software for data processing in the field of biometrics; downloadable application software for analyzing and processing bio-signal data; downloadable application software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; downloadable computer software for diagnosing diseases for medical purposes; data processors incorporating bio-sensors; wearable wireless biometric information readers in the nature of wearable activity trackers used for measuring and monitoring biometric, health and fitness data; downloadable mobile device software applications and downloadable computer software applications for measuring, tracking, analyzing, displaying, uploading, transmitting and aggregating data transmitted from multifunctional electronic devices and accessories worn by users to provide users with information and analysis with respect to their sleep, physical activity, light exposure, fitness and other general health and wellness; downloadable mobile device software applications and downloadable computer software applications that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks to provide users with information and analysis with respect to their sleep, physical activity, light exposure, fitness and other general health and wellness; computer hardware and downloadable software for measuring and characterizing of lighting fixture performance; downloadable computer operating system software for light configuration for residential, commercial and industrial facilities; downloadable light configuration software for use in residential, commercial and industrial facilities for controlling lighting systems; computer hardware and downloadable software for configuring lights; downloadable computer software for the design and analysis of optical and photometric systems; downloadable computer programs using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; downloadable computer software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; recorded computer programs using machine learning, deep learning, data science, predictive analytics, automation and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; recorded computer software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; computer hardware and recorded software for visualizing lighting fixtures and lighting systems and their performance; computer hardware and recorded software for designing, visualizing, specification and installation of lighting for built environments; downloadable database management software for creating, managing, searching and accessing a database of lighting fixtures and associated performance and business metrics; computer hardware and recorded software for creating autonomous emotion-driven lighting design and specification; computer hardware and recorded software for measuring and characterizing of lighting fixture performance; computer hardware and recorded software for design modeling lighting fixtures; downloadable virtual reality, augmented reality and mixed reality software for designing, visualizing and creating specification of lighting fixtures and systems; computer hardware and recorded software for measuring, calculating, visualizing and characterizing of a lighting fixture's electrical, mechanical, spectral, optical and photometric performance, both in the near-field and in the far-field, pertaining to wattage, dimensions, spectral power distribution, spatial and angular light distribution; computer hardware and recorded software for creating advertising and marketing of lighting systems and fixtures; downloadable virtual reality, augmented reality and mixed reality software for visualizing lighting fixtures and lighting systems and their performance; recorded virtual reality, augmented reality and mixed reality software for visualizing lighting fixtures and lighting systems and their performance; technical measuring and testing apparatus for determining properties of light, namely, radiance, luminance, chromaticity, reflectance, transmittance, scatter, bidirectional reflectance distribution function (BRDF), bidirectional transmittance function (BTDF), color, contrast, color temperature, spectral power distribution and illuminance; downloadable computer software for use in the field of virtual reality, augmented reality and mixed reality for creating and designing lighting systems; downloadable operating software for use in enabling computers, handheld consoles, tablet computers, mobile devices, and smart phones to provide virtual reality, augmented reality and mixed reality experiences; downloadable software for use in connection with virtual reality, augmented reality and mixed reality for creating, sharing, and viewing, content online over the internet; downloadable software for creating virtual environments for the visualization of lighting systems; software, recorded and downloaded, namely, programs for the design, planning, simulation, visualization, in the nature of depicting the design in three-dimensional graphic design and analysis, of installations for lighting; downloadable computer software for creating and designing lighting effect visualizations; downloadable software for characterizing, mapping and displaying both the spatial and angular distribution of light radiating from light sources; downloadable software for measuring the properties of light, namely, radiance, luminance, chromaticity, reflectance, transmittance, scatter, bidirectional reflectance distribution function (BRDF), bidirectional transmittance function (BTDF), color, contrast, color temperature, spectral power distribution and illuminance; downloadable computer software for use in connection with virtual reality, augmented reality and mixed reality systems enabling users to visualize lighting fixtures and lighting systems and their performance; electric warning lights; helmet safety lights

10 - Phototherapeutic apparatus for medical purposes, namely, a light-emitting diode (LED) light source for medical treatments; light-emitting diode apparatus for lighting, incorporated into medical instruments; medical devices for treating sleep disorders; sensory light therapy units; sensors for medical use to be worn by a human to gather human biometric data; wearable monitors used to measure biometric data for medical use; light emitting devices, namely, medical operating lamps and light-emitting diode (LED) devices for treatment of a variety of skin conditions; circadian rhythms adjustment lamps, being electronic light therapy apparatus for medical purposes; ultraviolet lamps for medical purposes; ultraviolet radiator units for therapeutic purposes; ultraviolet ray lamps for medical purposes

11 - Lights, namely, lamps, lighting fixtures, and lighting systems comprised of LED modules, power supplies and wiring; wall, ceiling, floor, building exterior and interior, and outdoor lights being lighting fixtures having light emitting diodes (LEDs); lighting fixtures having LED light engines; spot lights; electric luminaires; LED light components, namely, LED modules, power supplies, and wiring; light installations; LED landscape lights; LED underwater lights; strip lights for indoor and outdoor lights; accent lights for indoor use; track lights being lighting fixtures; LED light machines; flood lights; work lights, namely, LED work lights for construction settings; LED light strips for decorative purposes; sconce lighting fixtures; wall lights; LED mood lights; lighting fixtures for illumination of signs and displays; down-lights; recess lighting fixtures; cove lights, namely, ceiling, wall, and floor lights; wall graze lights; wall-wash lights; asymmetric wall, ceiling, floor, graze, and cove lights being lighting fixtures; wall, ceiling, floor, graze, and cove lights being lighting fixtures for producing a line-of-light; electric night lights; LED lighting fixtures, namely, landscape, wall, ceiling, floor, graze, and cove lights using LEDs as their illumination source; OLED landscape lights having organic light emitting diodes (OLEDs); electric light bulbs; hanging ceiling lights; electric lighting fixtures, namely, power failure backup safety lights; pendant lighting fixtures; light post luminaires; lighting fixtures having electric light bulbs; overhead ceiling lights; landscape lighting installations; lighting fixtures; LED light bulbs; LED light fixtures; LED lighting fixtures for use in display, commercial, industrial, residential, and architectural-accent lighting applications; ceiling lights; light bulbs; LED lights being LED lighting fixtures for indoor and outdoor lighting applications; lights for illumination of stairs, doors and other portions of buildings; lighting fixtures for commercial lighting and for architectural lighting applications; circadian rhythms adjustment lamps, not for medical purposes; sanitizing apparatus using ultraviolet light for sanitizing air, not for medical purposes; air cleaning units containing an air filter and ultraviolet lights and a photoc

alytic filter; ultraviolet lamps not for medical purposes; ultraviolet ray lamps, not for medical purposes; electric air sanitizing units; sterilizers not for medical purposes; sterilization units for medical purposes; air sterilizers; air sterilizing apparatus; air sterilizers for household purposes; air purifiers; air purifying apparatus; air purification units; air purifying apparatus and machines; air purifiers for household purposes; industrial air purifiers; germicidal lamps for purifying air; air cleaning units; air exchangers for cleaning and purifying air; portable air conditioners; disinfectant apparatus for medical purposes; sterilization units not for medical purposes being for buildings in the nature of apparatus that floods a room or space with anti-bacterial gas that eliminates substantially all bacteria in the room or space; disinfectant apparatus not for medical purposes; air sterilization units being air sterilizers that move air through ultraviolet light not for medical purposes; continuous air disinfection units being disinfectant apparatus not for medical purposes; sanitizing apparatus using ultraviolet light for sanitizing air for medical purposes; sterilizers for medical purposes; air sterilization units being air sterilizers that move air through ultraviolet light for medical purposes; continuous air disinfection units being disinfectant apparatus for medical purposes; lamp chimneys; LED light components, namely, LED modules, power supplies and wiring; lights for use in illuminating signs and displays

35 - Development of advertising concepts for advertisement, sales, selection and implementation of light installations; providing advertising space on free-standing visual advertising systems featuring the goods and services of others, namely, lighting fixtures and lighting systems and their performance; providing virtual reality, augmented reality and mixed reality consumer and commercial product information for visualizing lighting fixtures and lighting systems and their performance; providing services of data processing in the field of bacteria; providing consumer and commercial product information about the measurement and characterization of lighting fixture performance; providing an on-line searchable database featuring business metrics information; Commercial assistance relating to system implementation and system integration; providing an on-line searchable database in the field of lighting fixtures for commercial and consumer marketing of such lighting fixtures

37 - Providing a website featuring information about lighting apparatus installation for use by architectural designers and other customers; technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems; technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems, namely, providing consultation in the field of upgrades of lighting configurations for residential, commercial and industrial facilities; technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems, namely, providing consulting services of configuring the installation of lights; sterilization services in the field of air purification; sterilization services in the field of air purification by exposure to ultraviolet light for medical and non-medical purposes; continuous air disinfection services of surgical instruments and building spaces; providing a website featuring information on the installation of lighting fixture

41 - Training in the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence equipment in the field of the internet-of-things (IoT) and the fields of light and light systems; educational services, namely, conducting classes, seminars, conferences, and workshops on the use of machine learning, deep learning, data science, predictive analytics, automation and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, and distribution of training material in connection therewith; educational services, namely, providing training of engineers, designers, and manufacturers on the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence equipment in the field of the internet-of-things (IoT) and the fields of light and light systems; interactive on-line training services on the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence equipment in the field of the internet-of-things (IoT) and the fields of light and light systems; providing on-line training in the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence equipment in the field of the internet-of-things (IoT) and the fields of light and light systems; consulting services relating to the arranging and conducting of seminars, conferences and congresses in the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems; consultancy relating to arranging and conducting of classes, seminars, conferences, and workshops on the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light systems; simulation-based training services in the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems; educational services, namely, developing, arranging, and conducting educational conferences and programs and providing courses of instruction and workshops on the use of machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems

42 - Providing temporary online use of non-downloadable software applications for designing, configuring and operating lights, namely, lamps, light fixtures, and lighting systems; providing temporary online use of non-downloadable software applications for designing, configuring and operating lights having light emitting diodes (LEDs); providing temporary online use of non-downloadable software applications for configuring and/or operating lights; providing temporary online use of non-downloadable software applications for configuring and operating lights in residential, commercial and industrial facilities; providing temporary online use of non-downloadable software applications for designing, configuring and operating lights; Cloud computing platform, namely, cloud computing featuring software for use in database management; providing temporary online use of non-downloadable computer-aided design (CAD) software applications for designing light installations; providing temporary online use of non-downloadable software applications for facilities management, namely, configuring and operating building access, lights, illumination ecosystems, and security systems; providing temporary online use of non-downloadable software applications for remotely monitoring and controlling the function, status, and illumination outputs of other electrical, electronic, and mechanical devices and systems, namely, lights, security systems, illumination ecosystems, and home- and office-appliances; providing temporary online use of non-downloadable software applications for designing, developing, configuring, customizing, simulating, quoting, design manufacturing, procuring, installing, connecting, programming, implementing, controlling, operating, creating networking messages for, and updating of home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the internet of things (IoT), and of home and office systems having wireless or wired controllers, controlled devices; providing temporary online use of non-downloadable software for lights and for security, safety, and home and office monitoring and control systems, and of home and office systems for users to remotely and directly control networked, mobile, application, radio frequency identification (rfid) readers, wireless speakers, LAN (local area network) hardware, cellular, internet cloud-, and internet-of-things- based communications with lights and with home- and office-appliances; providing temporary online use of non-downloadable software applications featuring technology enabling users to configure and operate lights; design, development, and implementation of computer hardware and lighting system software for others; design, development of lights having LEDs; design, development and implementation of computer hardware and LED lighting system software for others; design, configuration and implementation of lights in residential, commercial and industrial facilities, namely, design and development of lighting fixtures for residential, commercial and industrial facilities; computer network configuration services relating to system implementation; design, development and implementation of computer hardware and lighting system software for others; Customizing computer software by adding custom fields and alerts for home and office lighting systems; design of computer simulated models for home and office systems; installation of computer software for home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the internet of things (IoT), and of home and office systems having wireless or wired controllers, controlled devices, and software for lights and for security, safety, and home and office monitoring and control systems, and of home and office systems for remote and direct control of and networked, mobile, application, radio frequency identification device (rfid), cellular, internet cloud-, and internet-of-things- based communications with lights; programming of computer software for others for home and office systems; design and development of home and office systems for connecting, operating, and managing lights and home- and office-appliances, being elements of the internet of things (IoT), and of home and office systems having wireless or wired controllers, and controlled devices; design and development of computer software for lights and for security, safety, and home and office monitoring and control systems, and of home and office systems for remote and direct control of and networked, mobile, application, radio frequency identification device (rfid), cellular, internet cloud-, and internet-of-things- based communications with lights and with home- and office-appliances; interior and exterior architectural light design services; light design consultation; design of lighting installations; light design services; light design and light technology specification services pertaining to permanent or temporary architectural, theatrical, entertainment, commercial and/or residential light applications; design of specialty interior and exterior light installations; interior and exterior light design; planning and layout design services for light installations; consulting in the field of the design of light installations; custom design and development of light installations; design of interior and exterior lights; custom design of light installations based on personal selections made by the customer; visual design services in the nature of designing aesthetic visual elements on communication media for representation and selection of light installations; design and development of visualization technologies for advertisement, sales, selection and implementation of light installations for others; providing a website featuring information in the field of light design, and configuration being development of lighting installations for use by architectural designers and other customers; providing temporary online use of non-downloadable computer programs for advising and diagnosing sleeping conditions, circadian rhythms, and internal body clocks; providing temporary online use of non-downloadable computer programs for providing information regarding sleeping conditions, circadian rhythms, and internal body clocks; providing temporary online use of non-downloadable computer pr

ograms for issuing documents on diagnosis information to people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; providing temporary online use of non-downloadable computer programs for providing diagnosis information for people engaged in business in the medical and educational fields to improve or cure sleeping conditions and circadian rhythms; providing temporary online use of non-downloadable software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; providing temporary online use of non-downloadable application software for measuring and monitoring vital signs, blood pressure and heart rate; providing temporary online use of non-downloadable application software for analyzing data in the field of biometrics; providing temporary online use of non-downloadable application software for data processing in the field of biometrics; providing temporary online use of non-downloadable application software for analyzing and processing bio-signal data; providing temporary online use of non-downloadable application software in the field of healthcare and wellness for analyzing, interpreting and storing collected biometric data; providing temporary online use of non-downloadable computer software for diagnosing diseases for medical purposes; providing temporary online use of non-downloadable data processor operation software incorporating bio-sensors; providing temporary online use of non-downloadable wireless biometric information reader software for measuring and monitoring biometric, health and fitness data; providing temporary online use of non-downloadable mobile device software applications and temporary online use of non-downloadable computer software applications for measuring, tracking, analyzing, displaying, uploading, transmitting and aggregating data transmitted from multifunctional electronic devices and accessories worn by users to provide users with information and analysis with respect their sleep, physical activity, light exposure, fitness and other general health and wellness; providing temporary online use of non-downloadable mobile device software applications and temporary online use of non-downloadable computer software applications for communicating data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks to provide users with information and analysis with respect to their sleep, physical activity, light exposure, fitness and other general health and wellness; providing temporary online use of non-downloadable computer software for the design and analysis of optical and photometric systems; scientific data mining analysis in the field of biometrics; providing scientific analysis of bio-signal data in the field of biometrics; providing design and analysis of optical and photometric systems, namely, landscape lighting design; application service provider (ASP) featuring software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing a website featuring temporary use of non-downloadable software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing on-line non-downloadable software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing temporary use of on-line non-downloadable cloud computing software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; providing temporary use of on-line non-downloadable software and software applications using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; software as a service (SAAS) services featuring software using machine learning, deep learning, data science, predictive analytics, automation, and artificial intelligence in the field of the internet-of-things (IoT) and the fields of light and light systems, namely, for controlling networked devices in the internet of things (IoT), and operating internet-enabled and connected lighting apparatus and light systems; design of visualization technologies, and development of visualization technologies, for a advertisement of the commercial products and business of others, namely, lighting fixtures and lighting systems; computer services, namely, electronic imaging of photographs of lighting fixtures and lighting systems; custom development of lighting fixtures and lighting systems; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and websites, of others in the fields of advertising and marketing of lighting systems and fixtures; design and development of virtual reality, augmented reality and mixed reality software; visual design services in the nature of designing aesthetic visual elements for online communication media for representation and selection of light installations; providing temporary online use of non-downloadable software applications for designing, visualizing, design specification and installing of lighting for built environments; providing temporary online use of non-downloadable software applications for creating autonomous emotion-driven lighting designs and specifications; providing temporary online use of non-downloadable software applications for measuring and characterizing lighting fixture performance; providing temporary online use of non-downloadable software applications for modeling lighting fixtures; providing temporary online use of non-downloadable augmented reality, virtual reality and mixed reality software applications for the design, visualization and design specification of lighting fixtures and systems; providing temporary online use of non-downloadable software applications for measuring, calculating, visualizing and design characterizing lighting fixtures pertaining to electrical, mechanical, spectral, optical and photometric performance, both in the near-field and in the far-field, including but not limited to wattage, dimensions, spectral power distribution, spatial and angular light distribution; design of information graphics and data visualization materials; providing temporary online use of non-downloadable software applications for characterizing, mapping and displaying both the spatial and angular distribution of light radiating from light sources; providing temporary online use of non-downloadable software applications for measuring the properties of light, namely, radiance, luminance, chromaticity, reflectance, transmittance, scatter, bi-directional reflectance distribution function (brdf), bi-directional transmittance function (brtf), color, contrast, color temperature, spectral power distribution and illuminance; virtual reality, augmented reality and mixed reality software-as-a-service featuring software for visualizing lighting fixtures and lighting systems and recording their performance; graphic design of advertising materials for advertisement, sales, selection and implementation of light installations; technology consultation in the field of artificial intelligence technology; electronic data storage of biometric medical data

44 - Providing services of evaluating or measuring sleeping conditions, namely, conducting sleep studies for medical diagnostic and treatment purposes; providing services of evaluating or measuring circadian rhythms and internal body clocks, namely, health screening services in the field of sleep apnea; medical advisory services and medical diagnostic testing services in the field of sleeping conditions, circadian rhythms, and internal body clocks; providing services of providing medical information regarding sleeping conditions, circadian rhythms, and internal body clocks; providing medical information in the fields of improving or curing sleeping conditions and circadian rhythms; providing services of providing medical diagnosis information in the fields of improving or curing sleeping conditions and circadian rhythms; medical healthcare analysis services for diagnostic and treatment purposes provided by medical laboratories; providing medical services of measuring and monitoring vital signs, blood pressure and heart rate; healthcare services and wellness counseling services pertaining to collected biometric data; providing medical services of diagnosing diseases for medical purposes; providing medical services incorporating bio-sensors; medical equipment rental services for wireless biometric information readers for measuring and monitoring biometric, health and fitness data; providing medical services using health and fitness personal data transmitted from multifunctional electronic devices and accessories worn by users to provide users with information and analysis with respect their sleep, physical activity, light exposure, fitness and general health and wellness

45 - Consulting in the field of intellectual property licensing; licensing of intellectual property rights for patents, patent applications, trademarks, and technological know-how rights; licensing of patents; licensing of intellectual property for patents, patent applications, trademarks, and technological know-how rights; consultancy relating to the licensing of intellectual property including licensing of patents, patent applications, trademarks, and technological know-how rights; granting of licenses to others for the use of intellectual property rights including patents, patent applications, trademarks, and technological know-how rights

Goods & Services:

- 40 - Manufacture of pre-engineered floor and roof truss systems to the order and specification of others; custom manufacture of pre-engineered wood products
42 - Civil engineering, including structural and geotechnical engineering

3	292.	CORUS TECHNOLOGIES		US (USPTO) 98274060	35, 41, 42	Corus Technologies Limited; _Corus Technologies Limited Rebecca Liebowitz VENABLE LLP , P.O. BOX 34385, Rebecca Liebowitz, Rebecca Liebowitz	Filed AD: Nov 16, 2023
Goods & Services: 35 - Business research and surveys in the field of economic development in developing countries; business organization consulting in the field of economic development in developing countries; business management consulting in the field of economic development in developing countries; Business research in the field of economics; business data analysis in the field of economic development in developing countries; monitoring data for business purposes in the field of economic development in developing countries; database management in the field of economic development in developing countries; Human resources management, namely, developing human resources systems, namely, developing solutions to increase participation and enhance performance within governments and businesses in the field of economic development in developing countries; Payroll administration and management services namely, developing payroll systems 41 - Research and consulting in the field of education systems used to address economic development in developing countries 42 - Developing computer software for use in the field of economic development in developing countries; software design and development for use in the field of economic development in developing countries; computer software development for use in the field of economic development in developing countries; research and development of computer software for use in the field of economic development in developing countries; design development and implementation of software for use in the field of economic development in developing countries; information technology (IT) consulting services relating to installation, maintenance and repair of computer software for economic development in developing countries and information technology (IT) consulting services in the field of project management for economic development in developing countries; planning, design and management of information technology systems for use in the field of economic development in developing countries; computer software consulting relating to software for use in the field of economic development in developing countries; information technology audit support services, namely, review and analysis of IT systems for use in the field of economic development in developing countries; computer compatibility services, namely, data mapping for use in the field of economic development in developing countries; database development services relating to economic development in developing countries; database design and development relating to economic development in developing countries							
3	293.	THOMAS MORUS PREIS		US (USPTO) AN: 79018625_RN: 3237588	41, 42	Alter Orden vom St. Georg; _Alter Orden vom St. Georg BARBARA A. FRIEDMAN, EDELL, SHAPIRO & FINNAN, LLC, BARBARA A. FRIEDMAN, BARBARA A. FRIEDMAN	Registered AD: Sep 8, 2005 RD: May 1, 2007 ED: May 1, 2017
Goods & Services: 41 - Providing recognition in the nature of prizes to persons who best demonstrate in public, and in their everyday life, adherence to Christian values and personal integrity; publication of printed matter, other than publicity texts, in connection with an award program and related award ceremonies 42 - Quality assurance in the field of awarding prizes to persons who best demonstrate adherence to Christian values and personal integrity in their public and everyday lives, and the likelihood of maintaining such qualities in the future							
3	294.	R HORUS SMART ENERGY		US (USPTO) AN: 97184417_RN: 7088362	42	Mca System S.A.S.; _Mca System S.A.S. Angel Miguel Munoz, Esq., MUNOZ-LOPEZ & ASSOCIATES PLLC, Angel Miguel Munoz, Esq.	Registered AD: Dec 22, 2021 RD: Jun 20, 2023 ED: Jun 20, 2023
Goods & Services: 42 - Platform as a service (PAAS) featuring computer software platforms for analyzing energy consumption; Platform as a service (PAAS) featuring computer software platforms for analyzing air quality; Platform as a service (PAAS) featuring computer software platforms for energy reports generation; Platform as a service (PAAS) featuring computer software platforms for controlling thermostats and networked devices for the purposes of facilitating home and environmental monitoring; Providing a web site featuring temporary use of non-downloadable software for analyzing energy consumption; Providing a web site featuring temporary use of non-downloadable software for analyzing air quality; Providing a web site featuring temporary use of non-downloadable software for energy reports generation; Providing a web site featuring temporary use of non-downloadable software for controlling thermostats and networked devices for the purposes of facilitating home and environmental monitoring First use anywhere: Oct 25, 2018 First use in commerce: Oct 6, 2022							

3	295.	CHORUS COMMUNICATIONS		US (USPTO) AN: 88759636, RN: 6135136	42	Chorus Communications Inc.; _Chorus Communications Inc. Kenneth A. Sprang, WASHINGTON INTERNATIONAL BUSINESS COUNSE, Kenneth A. Sprang	Registered AD: Jan 15, 2020 RD: Aug 25, 2020 ED: Aug 26, 2030
Goods & Services: 42 - Business technology software consultation services; Consulting in the field of telecommunications technology; Consulting in the field of virtualization technologies for enterprises and businesses; Information technology consulting services; Technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of internet technology and services; Telecommunications technology consultancy First use anywhere: Apr 20, 2012 First use in commerce: Jan 15, 2013							
3	296.	TRUSTABLE INTELLIGENCE		US (USPTO) 98625796	35, 42	InteractiveGroup.ai Inc. InteractiveGroup.ai Inc. , 69 Henry Street	Filed AD: Jun 29, 2024
Goods & Services: 35 - Business consulting services for digital transformation First use anywhere: Feb 1, 2024 First use in commerce: Jun 21, 2024 42 - Computer software consulting; Computer software design and updating; Computer software design for others; Consulting services in the field of software as a service (SAAS); Research in the field of artificial intelligence; Technical consulting in the field of artificial intelligence (AI) software customization; Technology consultation in the field of artificial intelligence First use anywhere: Feb 1, 2024 First use in commerce: Jun 21, 2024							
3	297.	ORCUS FIRE & RISK, INC.		US (USPTO) AN: 86402041, RN: 4767622	42	Orcus Fire & Risk, Inc.; _Orcus Fire & Risk, Inc. Heather Benzenhoefer Waldron & Schneider, PLLC, 15150 MIDDLE BROOK DR, Heather Benzenhoefer	Registered AD: Sep 22, 2014 RD: Jul 7, 2015 ED: Jul 7, 2025
Goods & Services: 42 - Technical consultation in the field of engineering design for fire protection focused on fire hazard assessments, firewater demand calculations, water-based suppression system design and review, special hazards suppression system design and review, and fire and gas detection and alarm system design and review; technical consultation in the field of process safety engineering; technical consultation in the field of fire risk management, namely, radiant heat analysis, fire and explosion analysis, gas dispersion analysis, and quantitative risk analysis First use: May 19, 2014							
3	298.	TERRUS REAL ESTATE GROUP		US (USPTO) AN: 76006341, RN: 2463665	35, 36, 37, 42	Terrus Real Estate Group, L.L.C.; _Terrus Real Estate Group, L.L.C. Brian J. Laurenzo, BRICK GENTRY P.C., Brian J. Laurenzo	Registered AD: Mar 21, 2000 RD: Jun 26, 2001 ED: Jun 26, 2031

Goods & Services:

35 - Accounting services; arranging and scheduling business conferences and meetings

First use: Oct 1, 1999

36 - Real estate management, real estate planning, namely, leasing of real property; asset management, namely, real estate lease management, real estate acquisition and disposition management, real estate marketing and financial analysis; real estate financial reporting

First use: Oct 1, 1999

37 - Construction management

First use: Oct 1, 1999

42 - [Security and safety consultation in the field of commercial and residential properties;] construction consulting services, namely, project management and move management; energy management consulting

First use: Oct 1, 1999

3	299.	TERRUS REAL ESTATE GROUP	TERRUS REAL ESTATE GROUP	US (USPTO) AN: 75794113, RN: 2476507	35, 36, 37, 42	Terrus Real Estate Group, L.L.C.; _Terrus Real Estate Group, L.L.C. Brian J. Laurenzo, BRICK GENTRY P.C., Brian J. Laurenzo	Registered AD: Sep 7, 1999 RD: Aug 7, 2001 ED: Aug 7, 2031								
								Goods & Services:							
								35 - ACCOUNTING SERVICES							
								First use: Aug 31, 1999							
								36 - REAL ESTATE PLANNING AND PORTFOLIO MANAGEMENT NAMELY, LEASE CONSULTING AND ADMINISTRATION; ASSET MANAGEMENT AND REAL ESTATE TRANSACTION MANAGEMENT; FACILITIES AND PROPERTY MANAGEMENT; REAL ESTATE FINANCIAL REPORTING							
								First use: Aug 31, 1999							
								37 - CONSTRUCTION MANAGEMENT							
								First use: Aug 31, 1999							
								42 - [SECURITY AND SAFETY CONSULTATION IN THE FIELD OF COMMERCIAL AND RESIDENTIAL PROPERTIES;] CONSTRUCTION CONSULTING SERVICES, NAMELY, PROJECT MANAGEMENT AND MOVE MANAGEMENT; ENERGY MANAGEMENT CONSULTING; CONFERENCE MANAGEMENT SERVICES, NAMELY, SCHEDULING, EQUIPMENT SETUP, AND PREPARATION							
								First use: Aug 31, 1999

The screenshot shows the homepage of cabincoffee.com. At the top, there's a navigation bar with links like Home, Shop, Locations, Media, and About Us. A date stamp in the top right corner reads '2025-01-29 14:25:16'. The main content area features a large promotional banner for a 'JANUARY DRINK OF MONTH CINNAMON ROLL MOCHA'. The banner includes an image of a coffee cup and a cinnamon roll, and a button that says 'ORDER ON THE APP'. Below the banner, the text reads 'Everything's Better at the Cabin.™', 'STOP IN AND RELAX BY THE FIREPLACE, OR DRIVE THROUGH FOR A QUICK TRIP.', and 'WE CAN'T WAIT TO SEE YOU!'.

The screenshot shows a Wix website with a connection error message. The text reads: 'Looks like this domain isn't connected to a website yet.' Below this, there are instructions: 'To fix your domain: 1. Connect it to your Wix website in just a few easy steps. 2. Go to My Wix > Domains > Domains. 3. Click Add a Domain You Already Own. 4. Follow the steps to connect your domain to your website.' At the bottom, it says 'Need more help? Please contact our Support Team.' The background image shows a tangled mess of blue and orange cables.

Torus Station

House & Home

Torus.co

0 / 0

0 USD

Description:

Our app is designed to help customers with a Torus Station maximize their CO2 reductions, energy cost savings, and grid independence. The Today experience surfaces important insights and recommended actions to help you get the most out of your Torus Station on a daily basis. See how much renewable and battery power you're using with Torus-Powered, plan your usage with personalized Energy Forecast, and monitor your home's power in real-time. Automate your heavy loads including EV charging and air conditioning so you can use as much renewable energy as possible. Torus has a growing library of electric vehicle and smart thermostat integrations to help you connect and begin automating your home. Measure the impact you and your Torus Station are creating for our world and your wallet with our Impact reports. Compare the impact of your home with a Torus Station vs a fossil fuel home to see how you are helping save the world and money along the way. You can learn more at torus.co
